

**GENERAL CONDITIONS
OF CONSTRUCTION CONTRACTS
CITY AND COUNTY OF HONOLULU**

TABLE OF CONTENTS

CHAPTER 1 - DEFINITIONS; REFERENCES

- 1.1 Definitions
- 1.2 References

CHAPTER 2 - REPRESENTATIONS AND WARRANTIES

- 2.1 Representations by the City
- 2.2 Contractor's representations

CHAPTER 3 - SCOPE OF CONTRACT

- 3.1 Scope of contract
- 3.2 Contractor to report errors or discrepancies
- 3.3 Modifications
- 3.4 Claims based on oral directives
- 3.5 Value engineering incentive
- 3.6 Contract not binding unless funds available
- 3.7 Fiscal responsibility
- 3.8 Assignment of contract; change of name

CHAPTER 4 - PERFORMANCE

- 4.1 Decisions of the officer-in-charge
- 4.2 Professional work
- 4.3 Commencement requirements
- 4.4 Contract, plans and specifications to be kept on site
- 4.5 Construction methods and equipment
- 4.6 Access and inspection
- 4.7 Quality of materials and equipment

- 4.8 Character of workers, methods and equipment
- 4.9 Other contracts
- 4.10 Remedies
- 4.11 Wages and hours
- 4.12 Safety and health
- 4.13 Protection of pedestrians and vehicular traffic; access to property
- 4.14 Discovery of hazardous materials
- 4.15 Environmental pollution and hazardous materials control
- 4.16 Noise control
- 4.17 Rubbish disposal
- 4.18 Restoration and precautions
- 4.19 Historical and archaeological finds
- 4.20 Maintenance of site and final cleanup
- 4.21 Laws, regulations
- 4.22 Partial acceptance of project
- 4.23 Responsibility of the contractor prior to acceptance
- 4.24 Final inspection
- 4.25 Guarantee
- 4.26 Joint contractor, subcontractor

CHAPTER 5 - TIME AND DELAYS

- 5.1 Time
- 5.2 Overtime work
- 5.3 Delay; time extensions

CHAPTER 6 - PAYMENT

- 6.1 Force account
- 6.2 Payment
- 6.3 Payments during performance of work

- 6.4 Payment for delivered materials or equipment
- 6.5 Final payment
- 6.6 Prompt payment by contractors to subcontractors
- 6.7 Payment in bonds
- 6.8 Assignment of money

CHAPTER 7 - INSURANCE; PERFORMANCE AND PAYMENT BONDS

- 7.1 Insurance
- 7.2 Indemnification
- 7.3 Payment guarantee
- 7.4 Contract performance and payment bonds

CHAPTER 8 - DISPUTES AND REMEDIES

- 8.1 Suspension of work
- 8.2 Termination for default for nonperformance or delay; damages for delay
- 8.3 Termination for convenience
- 8.4 Liquidated damages
- 8.5 Authority to withhold money due or payable
- 8.6 Authority to resolve contract and breach of contract controversies

CHAPTER 9 - SEXUAL HARASSMENT

- 9.1 General
- 9.2 Applicability
- 9.3 Policy term
- 9.4 Pledge and acceptance

CHAPTER 10 - MISCELLANEOUS

- 10.1 Use of materials
- 10.2 Assignment of antitrust claims for overcharges for goods and materials purchased

EXHIBITS

- "A" Surety Bid Bond
- "B" Performance Bond (Surety)
- "C" Labor and Material Payment Bond (Surety)

"D"	Performance Bond
"E"	Labor and Material Payment Bond
"F"	Estimate for Change Order Work
"G"	Force Account Worksheet
"H"	Certificate of Current Cost or Pricing Data
"I"	Agreement (Name Change)
"J"	Value Engineering Change Proposal
"K"	DF-P-65, Acknowledgment of Third Party Liability

GENERAL CONDITIONS OF CONSTRUCTION CONTRACTS CITY AND COUNTY OF HONOLULU

The General Conditions of Construction Contracts of the City and County of Honolulu, incorporated by reference in the invitation for bids and referred to as the "General Conditions", represent the City's policy relating to construction projects as authorized by the Hawaii Revised Statutes, Chapter 103D, and the Hawaii Administrative Rules (HAR), Title 3, Department of Accounting and General Services. Related provisions from the Hawaii Administrative Rules (HAR), Title 3, Department of Accounting and General Services, are presented for convenience only and may not be complete. Where provisions are taken from the HAR, reference is made to the applicable chapter or section. Should any provision herein be inconsistent with the HAR, the HAR shall govern. Bidders and contractors should familiarize themselves with the HAR.

Wherever "chief procurement officer" appears in the HAR, it shall mean the "Contracting Officer"; wherever "head of the purchasing agency" or "procurement officer" appears in the HAR, both shall mean the "Officer-in-Charge".

The General Conditions is available upon request at the Division of Purchasing, City Hall, 530 South King Street, Room 115, Honolulu, Hawaii, 96813.

The separate parts of the invitation for bids, as defined below, including the plans and specifications, are intended to complement each other. Unless it is apparent that a different order of precedence is intended, addenda shall govern over all other previously issued addenda, and other contract documents; plans shall govern over the City's standards and specifications and these general conditions; special provisions shall govern over plans, the City's standards and specifications, and these general conditions. Where there is a discrepancy between the bid proposal and other parts of the invitation for bids, the bid proposal shall govern.

CHAPTER 1 - DEFINITIONS; REFERENCES

1.1 Definitions

"Addendum" means a written document issued by the Contracting Officer or, for informal bids, the Officer-in-Charge during the bidding period, involving changes to the invitation for bids which shall be considered and made a part of the invitation for bids and contract.

"Bid" means the executed document submitted by a bidder in response to an invitation for bids. [HAR 3-120-2]

"Bidder" means any individual, partnership, firm, corporation, joint venture, or other entity submitting directly or through a duly authorized representative or agent, a bid for the construction contemplated. [HAR 3-120-2]

"Change order" means a written order signed by the Contracting Officer or, when delegated by the Contracting Officer, by the Officer-in-Charge directing the Contractor to make changes with or without the consent of the Contractor. [HAR 3-120-2]

"City" means the City and County of Honolulu, State of Hawaii.

"Construction" means the process of building, altering, repairing, improving, or demolishing any public structure or building, or other public improvements of any kind to any public real property. The term includes the routine operation, routine repair, or routine maintenance of existing structures, buildings, or real property. [HRS 103D-104]

"Contract" means all documents covering the construction of the project and services in connection therewith for which award is made to the Contractor, including the furnishing of labor, materials and equipment in connection therewith. It shall include the notice to contractors, proposal, the list of subcontractors, the wage schedule, general instructions to bidders, special provisions, special notice to bidder or special instructions to bidder, the bonds, the bid specifications, the plans, the general conditions, and any documents or publications, addenda, amendments and change orders, whether attached to or incorporated by reference.

"Contracting Officer" means:

- (1) For improvement district projects, the City Council Chair or any official of the City so designated by the City Council Chair;
- (2) For the Board of Water Supply, the Manager and Chief Engineer of the Board of Water Supply or the Manager and Chief Engineer's delegated designee; and
- (3) For all other projects, the Director of the Department of Budget and Fiscal Services of the City and County of Honolulu, or the Director's delegated designee.

"Contractor" means any individual, partnership, firm, corporation, joint venture, or other legal entity undertaking the execution of the work under the terms of the contract with the City, and acting directly or through its agents or employees.

"Days" means consecutive calendar days unless otherwise specified. [HAR 3-120-2]

"Designee" means a person appointed by the Contracting Officer or the Officer-in-Charge to act on its behalf with delegated authority.

"Guarantee" means a written agreement or assurance of the quality of or of the length of use to be expected from equipment, material, device, or system offered, or work performed.

"Hazardous materials" mean and include any and all radioactive materials, asbestos, organic compounds known as polychlorinated biphenyls, chemicals known to cause cancer or reproductive toxicity, hazardous wastes, toxic substances, and any and all other substances or materials defined as "hazardous materials," "extremely hazardous materials," "hazardous wastes" or "toxic substances" under or for the purposes of hazardous materials laws.

"Hazardous materials laws" mean and include all federal, state or local laws, ordinances, rules, regulations or codes, now or hereafter in effect, relating to environmental conditions, human health or industrial hygiene, including but not limited to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. section 9601, et. seq., the Resource Conservation and Recovery Act, 42, U.S.C. section 6901, et. seq., the Hazardous Materials Transportation Act, 42 U.S.C. section 1801, et. seq., the Clean Water Act, 33 U.S.C. section 1251 et. seq., the Clean Air Act, 42 U.S.C. 7401 et. seq., the Toxic Substances Control Act, 15 U.S.C. section 2601 - 2629, the Safe Drinking Water Act, 42, U.S.C. sections 300f - 300j, HRS Chapter 128D, Environmental Response Law, HRS Chapter 342B, Air Pollution Control, HRS Chapter 342D, Water Pollution, HRS Chapter 342H, Solid Waste Pollution, HRS Chapter 342J, Hazardous Waste, HRS Chapter 342L, Underground Storage Tanks, Chapter 342P, Asbestos, and any similar state or local laws or ordinances and the regulations now in effect or hereafter adopted, published or promulgated thereto.

"Improvement district project" means a project constructed pursuant to chapter 14, Revised Ordinances of Honolulu (ROH), titled "Public Works Infrastructure Requirements Including Fees and Services."

"Informal bid" means small purchase construction estimated at less than \$25,000 and procured by telephone quotations or written bids and award is by purchase order.

"Invitation for bids" shall have the same meaning as contract.

"Notice to contractors" or **"notice to bidders"** means the publication or the notice of a solicitation for bids.

"Notice to proceed" means the document issued to the Contractor designating the official commencement date of the performance under the contract.

"Officer-in-Charge" means the department head of the agency with delegated authority for which construction is being procured, or the Officer-in-Charge's delegated designee.

"Procurement" means buying, purchasing, renting, leasing, or otherwise acquiring any good, service, or construction. The term also includes all functions that pertain to the obtaining of any good, service, or construction, including description of requirements, selection and solicitation of sources, preparation and award of contracts, and all phases of contract administration. [HRS 103D-104]

"Proposal" shall have the same meaning as bid.

"Purchasing agency" means the agency requesting the construction for the using agency. **"Purchasing Division"** means the Division of Purchasing, Department of Budget and Fiscal Services, with delegated authority to solicit bids and award contracts.

"Quotation" means a statement of price, terms of sale, and description of construction offered by a prospective bidder, usually for informal bids.

"A responsible bidder" means a person who has the capability in all respects to perform fully the contract requirements, and the integrity and reliability which will assure good faith performance. [Had 3-120-2]

"Responsive bidder" means a person who has submitted a bid which conforms in all material respects to the invitation for bids. [HAR 3-120-2]

"Solicitation" means an invitation for bids or a request for quotation issued by the City for the purpose of soliciting bids to perform construction.

"Specifications" mean any description of the physical or functional characteristics, or of the nature of a good, service, or construction item. The term includes descriptions or any requirement for inspecting, testing, or preparing a good, service, or construction item for delivery. [HRS 103D-104]

"State" means State of Hawaii.

"Subcontractor" means any person who enters into an agreement with the contractor to perform a portion of the work for the contractor. [HAR 3-120-2]

"Warranty" shall have the same meaning as guarantee.

"Working day" means any day on the calendar, exclusive of holidays, Saturdays, and Sundays. Unless another meaning is intended, "working days" shall mean consecutive working days.

1.2 References. (a) When reference is made to known standards and specifications, the most recently adopted and published edition of such standards and specifications on the date of the notice to contractors is contemplated, unless otherwise specified.

(b) Abbreviations. The following abbreviations shall refer to the technical society, organization, body, code, rules, or standards, listed opposite each abbreviation:

AASHTO	American Association of State Highway and Transportation Officials
ACI	American Concrete Institute
ADAAG	Americans with Disabilities Accessibility Act Guidelines
AISC	American Institute of Steel Construction
AITC	American Institute of Timber Construction
ANSI	American National Standard Institute
ASTM	American Society for Testing and Materials
AWWA	American Water Works Association
AWS	American Welding Society
FHWA	Federal Highway Administration, U.S. Department of Transportation
FS	Federal Specifications
G06	General Order No. 6 of the Public Utilities Commission, Rules for Overhead Electric Line Construction
GRJP	General Rules for Joint Use of Poles
HAR	Hawaii Administrative Rules
HRS	Hawaii Revised Statutes
IES	Illuminating Engineering Society
NEC	National Electric Code
UBC	Uniform Building Code
UL	Underwriters' Laboratories, Inc.
UPC	Uniform Plumbing Code
WCLA	West Coast Lumberman's Association

(c) City and County of Honolulu standards and specifications. The following are commonly referred to standards and specifications of the City and County of Honolulu which are available for purchase at the City's Municipal Store:

- (1) Standard Details for Public Works Construction, September 1984, commonly referred to as standard details;
- (2) Standard Specifications for Public Works Construction, September 1986, commonly referred to as standard specifications;
- (3) Standard Details for Parks and Recreation Construction, May 1990; and
- (4) Water System Standards, Volume I, Approved Material List and Standard Details for Water System Construction, Volume II, dated 1985, and Water System External Corrosion Control Standards, Volume III, dated 1991, of the Board of Water Supply, commonly referred to as water system standards.

CHAPTER 2 - REPRESENTATIONS AND WARRANTIES

2.1 Representations by the City. (a) Surface and subsurface conditions. Where investigation of subsurface conditions has been made by the City in respect to foundation or other design, the Contractor may inspect the records of the City as to such investigation and examine any sample that may be available. Where such information is shown in the plans, said information represents only the statement by the City as to the character of material which has been actually encountered by the City in its investigation and is included only for the convenience of Contractor and other bidders.

Any subsurface information or hydrographic survey data furnished are for the Contractor and other bidders' convenience only. The information and data furnished are the product of the Officer-in-Charge's interpretation of the facts gathered in investigations made at the specific locations indicated to aid in the design of the project, and the City assumes no responsibility whatever in respect to the sufficiency or accuracy of borings or of the log of test borings or other preliminary investigations, or of the interpretation thereof, and there is no guaranty, either expressed or implied, that the conditions indicated are representative of those existing throughout the work. In addition, no assurance is given that conditions found at the time of the subsurface explorations, such as the presence or absence of water, will be the conditions that prevail at the time of construction. The Contractor shall be solely responsible for all assumptions, deductions, or conclusions the Contractor may make or derive from the subsurface information or data furnished.

Making information concerning subsurface conditions available to Contractor and other bidders is not to be construed in any way as a waiver of the Contractor's responsibility to examine the invitation for bids and site. Contractor must satisfy itself through its own investigation as to conditions to be encountered.

(b) Utilities, underground. All underground water, gas, oil, telephone, electric, storm drain, sewer, and other pipes or conduits, shown on the plans, are only approximate in their locations. The Contractor shall make a personal investigation and inspection of the records and drawings possessed by owners of the utilities. The Contractor shall make satisfactory arrangements with the owners of the utilities for the relocation, maintenance and protection of existing utilities.

(c) Materials and equipment. The City does not assume any responsibility for the availability of any materials or equipment required under this contract. Unless otherwise specified in the invitation for bids, the bidder shall be considered as having taken into account when submitting a bid the availability of materials or equipment required under the contract, except as provided for in section 5.3, Delay; time extensions.

(d) Estimated quantities. All quantities appearing in the invitation for bids are approximate, and those indicated in the proposal are prepared for the comparison of bids only. The City does not, expressly or by implication, warrant that the actual quantities will correspond therewith. Contractor understands and has included in its bid prices, the entire cost of the performance of the contract, and it is understood and agreed that there is included in each lump sum or unit priced bid item, the entire cost of any and all items incidental to the performance of the contract covered by such lump sum or unit priced bid item. By submittal of its bid, the Contractor certifies that it has verified these quantities in a manner deemed necessary or expedient.

2.2 Contractor's Representations. (a) License. Contractor represents that Contractor is a business entity which is experienced and skilled in the construction of projects of the type described in the contract and that Contractor is licensed by the State of Hawaii to engage in the type of construction required by the contract and is in compliance with all applicable laws and regulations precedent thereto.

(b) Contractor's warranty. By the act of submitting its bid for the proposed contract, the Contractor warrants that:

(1) The Contractor and all subcontractors intended to be used by the Contractor have carefully and thoroughly reviewed the invitation for bids and have found them complete and free from ambiguities and sufficient for the purpose intended;

(2) The Contractor has investigated and examined carefully the site and the invitation for bids and understands the nature, location and character of the project and the site;

(3) The Contractor and all workers, employees and subcontractors intended to be used are skilled and experienced in the type of construction represented by the construction contract documents bid upon;

(4) Neither the Contractor nor any of the Contractor's employees, agents, suppliers or subcontractors have relied upon any verbal representations from the City, its employees or agents, including architects, engineers or consultants, in assembling the bid figure; and that

(5) The Contractor's bid price is based solely upon the invitation for bids and properly issued written addenda and not upon any other written or verbal representation, and based upon the Contractor's own examination and investigation of surface and subsurface conditions and availability of materials and equipment. Where quantities of any bid item differ from those specified in the bid proposal, for comparison of bids only, the quantities in the bid proposal shall govern.

(c) Independent price determination. By submitting a bid, the bidder certifies that the price submitted was independently arrived at without collusion. [HAR 3-122-192]

(d) Contractor's representations. The Contractor represents that:

(1) Contractor has no obligations, commitments or impediments of any kind that will limit or prevent performance of work as required by the contract; and

(2) To the best of its knowledge, there are no obligations, commitments or impediments of any kind that will limit or prevent performance of work as required by the contract.

CHAPTER 3 - SCOPE OF CONTRACT

3.1 Scope of contract. (a) The scope of the contract encompasses the construction of the project described in the invitation for bids and related services and the furnishing of, and the payment for, all materials, tools, equipment, labor and incidentals necessary for the performance of such construction and services by the Contractor.

(b) Additional plans and specifications to be furnished by Officer-in-Charge. The Officer-in-Charge may furnish by written order such additional plans and specifications, during the performance of the contract, as may be necessary to clarify the contract or define it in greater detail, and the Contractor shall comply with such additional plans and specifications. Such additional plans and specifications shall become a part of the contract.

(c) Omission in contract. Work incidental to the contract although not specifically referred to in the contract shall be furnished and performed by the Contractor without change in the contract price. Labor, materials and equipment directly or indirectly necessary to complete the construction of the project, whether or not the same may have been expressly provided for in the contract, shall be furnished and performed by the Contractor without change in the contract price.

3.2 Contractor to report errors or discrepancies. (a) The Contractor shall notify the Officer-in-Charge in writing immediately upon discovery of any error, omission or discrepancy: (1) In the layout given by stakes; (2) In points or instructions furnished by the Officer-in-Charge; (3) Within the contract or any part thereof; or (4) Between the plans and conditions on the site.

(b) Differing site conditions. The Contractor shall immediately, before such conditions are disturbed, notify the Officer-in-Charge of:

(1) Subsurface or latent physical conditions at the site differing materially from those indicated in the contract; or

(2) Unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract. [HAR 3-125-11]

(c) Utilities. In the event the utilities are damaged or disturbed by the Contractor, the Contractor shall be held liable for the damaged or disturbed utilities under the following conditions:

- (1) Utilities were shown on the plan;
- (2) Utilities were located and exposed on the job as it progressed;
- (3) Utilities were pointed out to the Contractor in the field;
- (4) The Contractor should have been made aware of through the Contractor's diligent personal investigation and inspection of the records and drawings of owners of the utilities, supplemented by probing, actual digging, or by other means in the field if necessary, to have determined the actual locations of utilities with all their branch and services lines.
- (5) The Contractor's failure to exercise reasonable care in the performance of the work, whether or not shown on the plans.

The Contractor shall immediately notify the Officer-in-Charge of any disturbance or damage to a utility.

The Contractor shall, upon receiving instructions from the Officer-in-Charge, repair and restore the damaged or disturbed utilities to the preexisting condition at no cost to the City or the project. Any damage claims due to the disruption of service caused by the utilities being damaged shall be paid by the Contractor, who shall save harmless the City from all suits, actions or claims of any character brought on account of such damage.

In the event utilities, which were not shown on the plans, not located or exposed on the job as the work progressed, not pointed out in the field, or not discovered through the Contractor's investigation and inspection of the records and drawings of owners of the utilities, supplemented by probing, actual digging, or by other means in the field if necessary, are damaged or disturbed by the Contractor, the Contractor shall not be held liable but shall notify the Officer-in-Charge immediately. Upon instructions from the Officer-in-Charge, the Contractor shall repair all damages which shall be considered to be extra work.

Utilities which must be relocated due to construction and not so indicated in the invitation for bids shall be considered extra work.

(d) Proceeding with performance. After discovery of an error, omission, discrepancy or differing site condition as described in this section, the Contractor shall provide written notice of same in the manner and time prescribed above to the Officer-in-Charge. The Contractor shall proceed with the performance of the contract only after receiving written approval or instructions from the Officer-in-Charge.

(e) Adjustments of price or time for performance. After receipt of such notice, the Officer-in-Charge shall promptly investigate the site, and if it is found that the conditions do materially so differ and cause an increase in the Contractor's cost of, or the time required for, performance of any part of the work under the contract, whether or not changed as a result of the conditions, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this section shall be determined in accordance with section 3.3(c), Price adjustment. [HAR 3-125-11]

(f) Timeliness of claim. No claim of the Contractor shall be allowed unless the Contractor has given the notice required in subsection (b) or subsection (c); provided, however, that the time prescribed therefore may be extended by the Officer-in-Charge in writing. No claim shall be allowed if asserted after final payment under the contract. [HAR 3-125-11]

(g) Knowledge. Nothing contained in this section shall be grounds for an adjustment in compensation if the Contractor had actual knowledge or should have had knowledge of the existence of such conditions prior to the submission of bids. [HAR 3-125-11]

3.3 Modifications. (a) Authority. Modifications that exceed ten per cent of the original contract price or are \$25,000 or more shall be issued by the Officer-in-Charge only after approval of the Corporation Counsel and the Contracting Officer.

For informal awards, the Officer-in-Charge shall authorize and approve all change orders, provided that the total of the original award plus any contingency fund and all change orders shall be under \$25,000.

The limits specified herein refer to each work item and not the total of the change order. For the purpose herein, "work item" means the item or incidental items required to accomplish the work.

(b) Change orders. The Officer-in-Charge may at any time, without notice to any surety, issue a change order to make changes in the work within the scope of the contract as may be found to be necessary or desirable. Such changes shall not invalidate the contract or release the sureties, and the Contractor will perform the work as changed, as though it had been part of the original contract. Minor changes in the work may be directed by the Officer-in-Charge at no change in contract price or time.

Any change will be set forth in a change order or written order. Where such additional work is ordered in a written order other than a change order, the Officer-in-Charge will as soon as practicable issue a change order, provided that the Officer-in-Charge promptly and duly makes such provisional adjustments in payments or time for the direct costs of the work as changed as the Officer-in-Charge deems reasonable. In the absence of a change order or written order, the Contractor will not be entitled to payment for any such extra work.

Adjustments of price or time for performance. If any change order increases or decreases the Contractor's cost of, or the time required for performance of any part of the work under the contract, whether or not changed by the order, an adjustment may be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this section shall be determined in accordance with section 3.3(c), Price adjustment. [HAR 3-125-4]

On any price adjustment, Contractor shall submit detailed cost breakdowns in the format attached herein as Exhibit "F", for material, equipment and labor including additional or reduction in time, for the Officer-in-Charge's approval, **within ten working days** or within such further time as the Officer-in-Charge may allow, from the time the Contractor is informed of the work to be performed or of any changes. The substantiation shall include the Contractor's and subcontractor's cost breakdown to a level of detail acceptable to the Officer-in-Charge.

Should the Contractor delay or refuse to submit detailed cost breakdown for the changed work, the Officer-in-Charge may pay the Contractor in accordance with subsection (c).

(c) Price adjustment. Any adjustment in contract price made pursuant to the contract shall be determined in one or more of the following ways:

- (1) By agreement on a fixed price adjustment before recommencement of the pertinent performance or as soon thereafter as practicable;
- (2) By unit prices specified in the contract or subsequently agreed upon;
- (3) Whenever there is a variation in quantity for any work covered by a line item in breakdown costs provided by the Contractor pursuant to contractual pre-work submittal requirements, by the Officer-in-Charge, at the Officer-in-Charge's discretion, adjusting the lump sum price proportionately;
- (4) In such other manner as the parties may mutually agree; or
- (5) At the sole option of the Officer-in-Charge, by the costs attributable to the event or situation covered by the change, plus appropriate profit or fee;
- (6) In the absence of agreement between the parties, by a unilateral determination by the Officer-in-Charge of the costs attributable to the event or situation covered by the change, plus appropriate profit or fee, all as computed by the Officer-in-Charge in accordance with generally accepted accounting principles and applicable sections of chapters 3-123 and 3-126, HAR; or
- (7) By force account under section 6.1.

In determining the cost or credit to the City resulting from a change, the allowances for all overhead, extended overhead resulting from adjustments to contract time (including home office and field overhead) and profit combined, shall not exceed the percentages set forth below:

- (1) For the Contractor, for any work performed by its own labor forces, fifteen percent of the cost;
- (2) For each subcontractor involved, for any work performed by its own forces, fifteen percent of the cost;
- (3) For the Contractor or any subcontractor, for work performed by their subcontractors, seven percent of the amount due the performing subcontractor.
- (4) Percentages for fee and overhead. Not more than three line item percentages for fee and overhead, not to exceed the maximum percentages shown above, will be allowed regardless of the number of tier subcontractors. [HAR 3-125-13]

(d) Variations in estimated quantities. Where the quantity of a pay item in the contract is an estimated quantity and where the actual quantity of such pay item varies more than fifteen per cent above or below the estimated quantity stated in the contract, an adjustment in the contract price shall be made upon demand of either party. The adjustment shall be based upon any increase or decrease in costs due solely to the variation above one hundred fifteen per cent or below eighty-five per cent of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Officer-in-Charge shall, upon receipt of a timely written request for an extension of time, prior to final payment of the contract, ascertain the facts and make such adjustment for extending the completion date as in the judgment of the Officer-in-Charge the findings justify. Any adjustment in the contract price shall be in accordance with section 3.3(c). [HAR 3-125-10]

(e) Cost or pricing data

(1) Application. For any adjustment exceeding \$100,000, the Contractor shall submit cost or pricing data and certification of that data except as provided for in paragraph (3). Certification shall be in the form attached herein as Exhibit "H". For adjustments less than \$100,000, the Officer-in-Charge may, upon written determination that the circumstances warrant submission of cost or pricing data, require cost or pricing data.

(2) Cost or pricing data defined. Cost or pricing data mean all facts as of the date of price agreement that prudent buyers and sellers would reasonably expect to affect price negotiations significantly. Such data are factual, not judgmental, and are therefore verifiable. They are facts that can reasonably be expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred including such factors as:

- (A) Vendor quotations;
- (B) Nonrecurring costs;
- (C) Information on changes in production methods and in production or purchasing volume;
- (D) Data supporting projections of business prospects and objectives and related operations costs;
- (E) Unit cost trends such as those associated with labor efficiency;
- (F) Make or buy decisions;
- (G) Labor union contract negotiations; and
- (H) Information on management decisions that could have a significant bearing on costs.

(3) Exceptions. Cost or pricing data are not required if the price is based on contract unit prices; adequate competition, as in receiving bids or quotations from various subcontractors or suppliers for changed work; established catalogue prices or market prices; or prices set by law or regulation. However, the Officer-in-Charge may request cost or pricing data if the Officer-in-Charge considers that such price is not reasonable.

(4) Submission of cost or pricing data and certification. Cost or pricing data shall be submitted to the Officer-in-Charge prior to beginning price negotiations. The Contractor shall submit certification of that data in the form attached herein as Exhibit "H", as soon as practicable after agreement is reached on price that the cost or pricing data submitted are accurate, complete, and current as of the date of reaching agreement on price. Certification constitutes a representation as to the accuracy of the data upon which the Contractor's judgement is based. A certificate of current cost or pricing data shall not substitute for examination and analysis of the Contractor's proposal.

(5) Defective cost or pricing data. If certified cost or pricing data are subsequently found to have been inaccurate, incomplete, or not current as of the date stated in the certificate, the City is entitled to an adjustment of the contract price, including profit or fee, to exclude any significant sum by which the price, including profit or fee, was increased because of the defective data.

If the Contractor and the Officer-in-Charge cannot agree as to the existence of defective cost or pricing data or amount of adjustment due to defective cost or pricing data, the Officer-in-Charge shall set an amount in accordance with the provisions of subchapter 15, chapter 3-122, HAR, and the Contractor may appeal this decision as a contract controversy under chapter 3-126, HAR. [Subchapter 15, chapter 3-122, HAR]

(f) Claims. Upon receipt of a written order or change order, the Contractor shall proceed with the work. Failure of the parties to agree to an adjustment shall not excuse a Contractor from proceeding with the contract as changed. The right of the Contractor to dispute the contract price or time or both shall not be waived by its performing the work, provided however, that the Contractor follows the notice requirements for disputes and claims established by these general conditions.

If the Contractor does not agree with any of the terms or cost of the change order work, the Contractor shall, **within thirty days** after receipt of a written change order, unless such period is extended by the Officer-in-Charge in writing, file notice of intent to assert a claim for an adjustment. The requirement for timely written notice cannot be waived and shall be a condition precedent to the assertion of a claim for change order work. No claim by the Contractor for an adjustment hereunder shall be allowed if written notice is not given prior to final payment under the contract, provided that in the absence of a change order, nothing herein shall restrict the Contractor's right to pursue a claim arising under the contract or for breach of contract. [HAR 3-125-4]

No claim shall be made by the Contractor for any loss of anticipated profits because of any alterations, or by reason of any variation between the approximate quantities and the quantities of work as done.

3.4 Claims based on oral directives. (a) Oral directives. Any oral order, direction, instruction, interpretation or determination from the Officer-in-Charge which, in the opinion of the Contractor, causes any change, can be considered as a change only if the Contractor gives the Officer-in-Charge written notice of its intent to treat the oral order, direction, instruction, interpretation or determination as a change directive. The written notice must be delivered to the Officer-in-Charge before the Contractor acts in conformity with the oral order, direction, instruction, interpretation or determination, but **not more than five days after** delivery of the oral order to the Contractor. The written notice shall state the date, circumstances, whether a time extension will be requested, and source of the order that the Contractor regards as a change. The written notice may not be waived and shall be a condition precedent to the filing of a claim by the Contractor. Unless the Contractor acts in accordance with this procedure, any oral order shall not be treated as a change and the Contractor waives any claim for an increase in the contract time or contract price related to the work. [HAR 3-125-16]

(b) Acknowledgment of oral directive. **Not more than five days after** receipt of the written notice from the Contractor, the Officer-in-Charge shall issue a change order for the subject work if the Officer-in-Charge agrees that it constitutes a change. If no change order is issued in the time established, it shall be deemed a rejection of Contractor's claim for a change. If the Contractor objects to the Officer-in-Charge's refusal to issue a change order, it shall file a written protest with the Officer-in-Charge **within thirty days after** delivery to the Officer-in-Charge of the Contractor's written notice of its intention to treat the oral order as a change. In all cases the Contractor shall proceed with the work. The protest shall be determined in accordance with the disputes provisions under section 8.6, of these general conditions. [HAR 3-125-16]

3.5 Value engineering incentive. (a) Definitions. As used herein:

"**Net savings**" means those savings in project costs realized by the City as the result of a value engineering change proposal after deducting the contractor's share of the cost savings.

"**Single contract**" means the single construction for which the cost savings is proposed.

"**Value engineering**" means an analysis of the requirements for the systems, equipment and supplies of the single contract for the purpose of achieving a net savings by providing less costly items than those specified without impairing any essential functions and characteristics as service life, reliability, substitutability, economy of operations, ease of maintenance, and necessary standing functions.

"**Value engineering change proposal**" means a cost reduction proposal based on value engineering submitted by the contractor pursuant to this section and particularly identified as such.

(b) Applicability. The provisions of this section shall apply to any City construction contract in excess of \$100,000. The application of value engineering incentives shall not be construed to have an effect on the solicitation or the selection of a Contractor.

The contractor may develop and submit value engineering change proposals for drawings, designs, specifications, or other requirements of the contract. If any proposal is accepted and approved, in whole or in part, by the Officer-in-Charge, the contract shall be modified and shall include an equitable adjustment of the contract price in accordance with this section.

This section shall not apply to any cost reduction proposal that is not identified as a value engineering change proposal by the contractor at the time of its submission to the Officer-in-Charge.

(c) General provisions

(1) The processing of a value engineering change proposal shall be similar to that for any proposed contract change order and shall be considered only after the construction contract is awarded.

(2) Nothing herein shall be construed to mean that the City must accept or approve any or all value engineering change proposals submitted in accordance with this section. The Officer-in-Charge's interpretation and findings relative to the impairment of the functions or characteristics of the item or items covered by the value engineering change proposal shall be final.

(3) Adjustment in contract prices and allowances for implementation costs shall be in accordance with this section and shall only be considered if and when the value engineering change proposal is approved by the Officer-in-Charge and Contracting Officer. The receipt of the value engineering change proposal by the City or a verbal acceptance of a value engineering change proposal by any employee of the City will not obligate the City to accept the value engineering change proposal.

(4) The Officer-in-Charge may impose, as a condition of acceptance of any value engineering change proposal, a requirement that the Contractor warrant the statements, claims and other information contained in the value engineering change proposal. In addition, the contractor's responsibility under any such warranty shall be in addition to the liability imposed by the "guarantee of work" requirement as included in the contract.

(5) The contractor shall be responsible for the new design of the facility or a portion of the facility submitted as a value engineering change proposal, including errors and omissions and, if the value engineering change proposal is for a portion of the facility, for any adverse impacts the new design may have on the unchanged portions of the facility.

(6) Exhibit "J" titled "Value Engineering Change Proposal" may be used to initiate a value engineering change proposal.

(d) Conditions for a value engineering change proposal. A value engineering change proposal to a contract shall:

(1) Result in an estimated net savings to the City in the project cost of at least four thousand dollars by providing less costly items than or using different construction methods from those specified in the contract without impairing any essential functions and characteristics as service life, reliability, substitutability, economy of operation, ease of maintenance, and necessary standardized features of the completed work;

(2) Require, in order to be applied to the contract, a change order to the contract; and

(3) Not adversely impact on the performance schedule or the contract completion date.

As a minimum, provide the following information:

(1) A description of the difference between the existing contract requirements and the value engineering change proposal and the comparative advantages and disadvantages of each including durability, service life, reliability, substitutability, economy of operation, ease of maintenance, desired appearance, design, safety standards, impacts due to construction, and other essential or desirable functions and characteristics as appropriate;

(2) An itemization of the requirements of the contract which must be changed if the value engineering change proposal is adopted and a recommendation as to how to make each change;

- (3) An itemized estimate of the reduction in performance costs that will result from adoption of the value engineering change proposal or parts thereof taking into account the costs of implementation by the contractor, including any amounts attributable to subcontractors, and the basis for the estimate;
- (4) A prediction of any effects and impacts the value engineering change proposal would have on: other costs to the City as the costs of City-furnished property, related items, and maintenance and operation over the anticipated life of the material, equipment, or facilities as appropriate; the construction schedule, sequence and time; and bid item totals used for evaluation and payment purposes;
- (5) A statement of the time by which a change order adopting the value engineering change proposal must be issued so as to obtain the maximum cost reduction during the remainder of the contract, noting any effect on the contract time; and
- (6) If previously submitted, the dates of any previous submissions, the contract numbers of those contracts for which it was submitted and the previous actions by the City, if known.

When in the judgment of the Officer-in-Charge, a value engineering change proposal alters the design prepared by a registered professional architect or engineer, the contractor shall ensure the changes to be prepared are by or under the supervision of a registered professional architect or engineer, and stamped and so certified.

A value engineering change proposal will be processed expeditiously and in the same manner as prescribed for any other proposal which would likewise necessitate issuance of a contract change order. Unless and until a change order applies a value engineering proposal to a contract, the contractor shall remain obligated to perform in accordance with the terms of the contract and the City shall not be liable for delays incurred by the contractor resulting from the time required for the City's determination of the acceptability of the value engineering change proposal. The determination of the Officer-in-Charge as to the acceptance of any value engineering change proposal under a contract shall be final.

The Officer-in-Charge may accept in whole or in part any value engineering change proposal submitted pursuant to this section by issuing a change order to the contract. Prior to issuance of the change order to the contract, the contractor shall submit complete final contract documents similar to those of the original contract showing the accepted changes and the new design and features as well as the following:

- (1) Design calculations;
- (2) The design criteria used; and
- (3) A detailed breakdown of costs and expenses to construct or implement such revisions.

The change order will identify the final value engineering change proposal on which it is based.

When a value engineering change proposal submitted pursuant to this section is accepted under a contract, an equitable adjustment in the contract price and in any other affected provisions of the contract shall be made in accordance with this section and section 3.3, Modifications. The equitable adjustment shall first be established by determining the effect on the Contractor's cost of implementing the change, including any amount attributable to subcontractors and to the City's charges to the Contractor for architectural, engineering, or other consultant services and the staff time required to examine and review the proposal. The contract price shall then be reduced by fifty per cent of the net estimated decrease in the cost of performance.

The Contractor may restrict the City's right to use the data or information or both on any sheet of a value engineering change proposal or of the supporting data, submitted pursuant to this subsection, if it is stated on that sheet as follows: "This data or information or both shall not be disclosed outside the City, or be duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate this value engineering change proposal. This restriction does not limit the City's right to use this data or information or both if obtained from another source, or is otherwise available, without limitations. If this proposal is accepted by the City by issuance of a change order to the contract after the use of this data or information or both in such an evaluation, the City shall have the right to duplicate, use and disclose any data or information or both pertinent to the proposal as accepted, in any manner and for any purpose whatsoever, and have others so do."

In the event of acceptance of a value engineering proposal, the City shall have all rights to use, duplicate, or disclose in whole or in part, in any manner and for any purpose whatsoever, and to have or permit others to do so, any data or information or both reasonably necessary to fully utilize such proposal.

Notwithstanding the provisions of this section, for any construction contract, the contractor shall not be precluded from making substitution requests in accordance with section 1.13, Brand name, model; substitutions, of the General Instructions. The Officer-in-Charge shall be the sole judge of whether a proposal is a value engineering change proposal or a substitution request.

(e) Preparation, evaluation and acceptance of value engineering change proposal. The contractor shall submit with each value engineering change proposal the information as required by this section and provide all additional information as may be required by the Officer-in-Charge to evaluate and implement the value engineering change proposal. The cost for preparing the value engineering change proposal shall be the contractor's responsibility, and will be part of the contractor's cost for implementing the change, and compensation shall be made only when the proposal is accepted by the City and the adjustment in contract price is made as provided for in this section.

If the services of the City's architect, engineer, or consultant is necessary to review and evaluate a value engineering change proposal, the cost therefor shall be paid for by the Contractor.

The evaluation and acceptance of all value engineering change proposals shall be in accordance with the requirements as listed in this section.

Each value engineering change proposal shall be evaluated as applicable to the particular project, and past acceptance on another City project for a similar item shall not be automatic grounds for approval.

(f) Value engineering sharing method. The method by which the Contractor will share a portion of the cost savings from an accepted value engineering change proposal shall be in accordance with subsection (d) and the following:

(1) The Contractor's share in cost savings shall be for the single contract only, and no consideration shall be made for future acquisition, royalty type payment, or collateral savings.

(2) The City may accept the proposed value engineering change proposal, in whole or in part. The Officer-in-Charge shall issue a contract change order or modify the contract to identify and describe the accepted value engineering change proposal. [Chapter 3-132, HAR]

3.6 Contract not binding unless funds available. (a) No contract shall be binding or of any force and effect without an endorsement by the Director of the Department of Budget and Fiscal Services that there is an appropriation or balance of an appropriation over and above all outstanding contracts sufficient to cover the amount required by the contract. [HAR 3-122-102]

(b) Certification of a portion of funds. Notwithstanding the requirement for endorsement above, certification of a portion of the total funds required for a contract may be permitted when an immediate solicitation will result in significantly more favorable contract terms and conditions to the City than a solicitation made at a later date; provided that certification for partial funding shall be permitted only if the Director of the Department of Budget and Fiscal Services states in the certificate that the availability of funds in excess of the amount certified as available shall be contingent upon future appropriations or special fund revenues. All contracts partially funded shall be enforceable only to the extent to which funds have been certified as available. [HAR 3-122-102]

(c) Contracts involving Federal funds

(1) In any contract involving not only State or City funds but supplemental funds from the Federal government, or involving one hundred per cent Federal funds, this section shall be applicable only to that portion of the contract amount obligated and payable out of State or City funds; however, this shall be liberally construed so

as not to hinder or impede the City in contracting for any project involving financial aid from the Federal government.

(2) Unless otherwise specified, the Contractor, by submittal of a bid and acceptance of an award, agrees that payment of that portion of the contract amount that is supplemented or funded entirely by Federal funds shall be payable upon receipt of those Federal funds. [HAR 3-122-103]

3.7 Fiscal responsibility. (a) Every contract modification, change order, or contract price adjustment under a contract shall be subject to prior written certification by the fiscal officer for funding the project or the contract, as to the effect of the contract modifications, change order or adjustment in contract price on the total project budget or the total contract budget.

(b) In the event that any contract modification, change order, or adjustment results in an increase in the total project budget or total contract budget, the Officer-in-Charge shall not execute or make any contract modification, change order, or adjustment in contract price unless sufficient funds are made available therefor, or the scope of the project or contract is adjusted so as to permit the degree of completion that is feasible within the existing project budget or contract project; provided, that with respect to the validity, as to the contractor, of any executed contract modification, or adjustment in contract price which the contractor has reasonably relied upon, it shall be presumed that there has been compliance with the section. [HAR 3-122-241]

3.8 Assignment of contract; change of name . (a) Assignment of contract. When in the best interest of the City and upon written consent by the Contracting Officer, a successor in interest may be recognized in an assignment agreement in which the transferor, the transferee and the City agree that:

- (1) The transferee assumes all of the transferor's obligations;
- (2) The transferor remains liable for all obligations under the contract but waives all rights under the contract as against the City; and
- (3) The transferor shall continue to furnish, and the transferee, shall also furnish all required bonds. [HAR 3-125-14]

(b) Change of name. When a Contractor requests to change the name in which it holds a contract with the City, the Contracting Officer shall, upon receipt of a document indicating such change of name (for example an amendment to the articles of incorporation of the corporation), enter into an agreement with the requesting Contractor to effect such a change of name. The agreement changing the name shall be in the form attached hereto as Exhibit "I" and shall specifically indicate that no other terms and conditions of the contract are thereby changed. [HAR 3-125-14]

CHAPTER 4 - PERFORMANCE

4.1 Decisions of the officer-in-charge. (a) Formal contracts. Any question or dispute concerning any provision of the contract which may arise during its performance shall be decided by the Officer-in-Charge; provided, that decisions on questions or disputes relating to default or termination of the contract, extra cost to the City where the cost is more than ten per cent of the original contract price or \$25,000 or more, and payment, shall be made only with the approval of the Contracting Officer.

(b) Informal awards. The Officer-in-Charge shall decide on any question or dispute concerning awards made under small purchase procurement.

4.2 Professional work. The contract shall be performed in an orderly and professional manner in accordance with currently acceptable practice in Hawaii and shall be of the best quality, except as clearly specified otherwise.

4.3 Commencement requirements. (a) Notice to proceed. Upon execution of the contract by the Contracting Officer, the Officer-in-Charge may schedule a preconstruction conference or issue a notice to proceed to the Contractor designating the official commencement date for performance of the contract.

Unless otherwise specified in the invitation for bids, the notice to proceed shall be issued **within 60 days** after execution of the contract by the Director of the Department of Budget and Fiscal Services unless a later date is agreed to by mutual agreement. In the event that the notice to proceed is delayed beyond the 60 days or the time mutually agreed to, the contract amount may be adjusted in accordance with section 8.1, Suspension of work, or the Contracting Officer may, upon recommendation by the Officer-in-Charge, terminate the contract for convenience.

(b) Commencement of work. Unless otherwise specified by the Officer-in-Charge, the Contractor shall begin work **within ten working days** from the official commencement date and shall diligently prosecute the same to completion within the contract time allowed. The Contractor shall notify the Officer-in-Charge at least **three working days before** beginning work. At any subsequent suspension and resumption of work, the Contractor shall notify the Officer-in-Charge at least **twenty-four hours before** beginning actual operations.

Unless otherwise specified in the contract or in any written order, the Contractor shall not proceed with any part of the contract such as ordering of any equipment or materials, or performing any work prior to the official commencement date.

Unless otherwise provided for in these provisions or in the invitation for bids, the requirements in this section shall be considered incidental to the Contractor's performance of the contract.

(c) Shop drawings and other submittals

(1) Shop drawings. After receipt of the notice to proceed or other written order, the Contractor shall prepare and submit for acceptance in writing by the Officer-in-Charge, six prints of the shop drawings required by the contract, including fabricated materials, in the manner directed by the Officer-in-Charge. Shop drawings shall be finished plans, and shall be neat, legible and drawn to scale. Delays caused by the failure of the Contractor to submit shop drawings in a timely manner will not be considered as justifiable cause for extension of time. The Officer-in-Charge shall respond in writing **within thirty days** after receipt of any submittal, or resubmittal if corrections are required.

It shall be expressly understood that acceptance or approval by the Officer-in-Charge of the Contractor's shop drawings does not relieve the Contractor of any responsibility for accuracy of dimensions and details and for agreement and conformity of the shop drawings with the contract plans and specifications and that acceptance by the Officer-in-Charge is a general acceptance relating only to their sufficiency and compliance with the intention of the contract. The Contractor shall clearly identify and inform the Officer-in-Charge of any deviations from the contract documents at the time of submission and shall obtain the Officer-in-Charge's written acceptance of the specified deviation prior to proceeding with any work.

(2) The Contractor shall screen, stamp and sign all submittals before submitting them to the Officer-in-Charge for acceptance in writing. Submittals shall be identified by project title and appropriate specification section numbers or construction plan sheet numbers or both, and shall indicate all data necessary for evaluation. All nonapplicable data shall be blocked out and deviations from specifications shall be clearly marked and justified.

(3) Unless otherwise specified, the Contractor shall submit six prints of working or shop drawings to the Officer-in-Charge for acceptance as to method of construction and design prior to the commencement of the work under contract or the delivery to the project site of any equipment or material covered by the drawings, whichever is later. The Officer-in-Charge may require the drawings to be resubmitted as often as necessary to render them complete, legible and free from extensive corrections. If a resubmittal is required, the Officer-in-Charge shall return one print to the Contractor who shall make all the corrections or additions shown thereon. The Contractor shall then resubmit six prints of the corrected drawings for written acceptance by the Officer-in-Charge.

(4) No working or shop drawings that have been approved shall be changed without the written approval of the Officer-in-Charge. After acceptance, the Contractor may proceed with the parts of the project called for in such drawings.

(5) The Contractor shall submit for the acceptance of the Officer-in-Charge, other submittals as required by the contract.

(d) Payment and performance schedules. **Within seven days** of the official commencement date or within such further time as the Officer-in-Charge may allow, the Contractor shall submit for acceptance in writing of the Officer-in-Charge:

(1) The performance schedule, unless otherwise specified in the specification, shall be of the critical path method (CPM) type or approved equal, in the form of a network diagram and activity listing. The schedule shall show in sufficient detail and in orderly sequence all activities, their description, duration, relationship and dependencies necessary to the completion of the contract. It shall contain, but not be limited to, the sequence of all operations including procurement and mobilization of equipment, plant and materials to complete the work within the contract period. If the schedule is not accepted, it shall be revised as directed by the Officer-in-Charge. Changes in the schedule shall be made only with the written acceptance of the Officer-in-Charge. The schedule shall be used as a basis for establishing major construction operations and as a check on the progress of the work performed under the contract. Claims by the Contractor for delays including related time extensions may be considered only if the initial performance schedule has been accepted by the Officer-in-Charge.

Within seven days after receipt of recommended revisions to the performance schedule, the Contractor shall submit a revised schedule to the Officer-in-Charge for acceptance. Progress payments will be withheld until final approval of the schedule. At all times the schedule shall represent the Contractor's plan for orderly completion of the work. Any changes to the schedule shall require the written acceptance of the Officer-in-Charge. The Contractor shall update the schedule within 15 days of acceptance of any change to the schedule or deviation of 30 days between the Contractor's performance and the accepted schedule.

(2) The Contractor's work week schedule, in days and hours that the Contractor intends to work. Changes to the schedule shall not be made without written acceptance by the Officer-in-Charge.

(3) Payment schedule. Together with the performance schedule, the Contractor shall submit for the Officer-in-Charge's acceptance, an estimated payment schedule which coincides with the performance schedule. The schedule shall include an itemized breakdown of lump sum items. The schedule shall list the anticipated monthly payment and shall be used by the City for project budgeting purposes. Revised payment schedules shall be submitted for acceptance by the Officer-in-Charge immediately on acceptance of revised performance schedules.

(e) Personal supervision. The Contractor, at all times, shall be present in person, or be represented by the Contractor's superintendent with authority to act for the Contractor in connection with the contract during the performance of the contract. The Contractor shall submit to the Officer-in-Charge prior to start of work, the name of the person charged with the responsibility of all work. Pursuant to section 8.1, Suspension of work, failure of the Contractor or its superintendent to be present at the job site may result in suspension of the work by the Officer-in-Charge.

(f) Contractor's place of business. The Contractor shall maintain, for the duration of the contract, a permanent place of business within the State where the Contractor may be served notice and legal process. Written notice may also be served on the Contractor or its superintendent on the project site personally, or via facsimile machine if the Contractor has one, or via mail to the local post office address or post office box. [HRS 444-14]

(g) Field office, field telephone

(1) Field office. If required in the invitation for bids, the Contractor shall provide a field office for the Officer-in-Charge at a location approved by the Officer-in-Charge. It shall be available **within seven days after** the commencement of the work under the contract. Unless otherwise specified in the invitation for bids, the field office shall be weatherproof and not less than one hundred twenty square feet in gross floor area. The aggregate window areas of the office shall not be less than ten per cent of the floor area, and one exterior door shall be provided with a keyed cylinder-type lock. The office shall be furnished with one drafting table having a dimension of not less than 3' x 6' and a stool, adequate plan racks and hangers, one desk, two chairs, shelves, a broom, telephone service, electric outlets, electric lighting, paper towels, paper cups, soap, toilet paper, and potable water and shall be maintained in good repair and in a clean and sanitary condition by the Contractor. If the office is not equipped with a water closet and lavatory, the Contractor shall make

other arrangements to provide such facilities for the Officer-in-Charge. The Contractor shall comply with the requirements of the Land Use Ordinance of the City and County of Honolulu, relating to Special Permit Use and ADAAG. Payment for the field office shall be as specified in the invitation for bids.

(2) Field telephone. If required in the invitation for bids, the Contractor shall provide a field telephone for the Officer-in-Charge. Such field telephone shall be placed at a convenient and accessible location and housed in a box provided with a door which may be secured by a keyed cylinder-type lock. Payment for field telephone shall be as specified in the invitation for bids.

(h) Project sign. If required in the invitation for bids, the Contractor shall provide signs to identify the project. The signs shall be erected at locations approved by the Officer-in-Charge at the site of the project **upon commencement** of the work under the contract. Signs shall be properly erected and kept clean and legible. After completion of the work under the contract and final acceptance thereof, the Contractor shall remove the signs as the Contractor's property. Payment for the project signs will be as specified in the invitation for bids.

(i) Permits, licenses. The Contractor shall obtain all permits and licenses, pay all charges, fees, and taxes, give all notices and comply with all laws, ordinances, rules and regulations bearing on the conduct of the work as drawn and specified. These may include but not be limited to demolition permit, building permit, dumping charges, grading permit, excavation permit, traffic permit, community noise permit, City park right-of-entry permit, National Pollutant Discharge Elimination System (NPDES) permit and compliance with Rodent Control Requirements on Demolition of Structures and Clearing of Sites and Vacant Lots. All City building and grading permit fees are waived for the contract. All cost and work under this subsection shall not be paid for directly but shall be considered incidental and included in the bidder's bid prices for the various items of work.

(j) Surveys and construction stakes, lines and grades

(1) For projects of Design and Engineering Group and Mechanical/Electrical Design and Engineering, of the Department of Design and Construction:

(A) All lines, levels and elevations are to be laid out and checked by a surveyor or civil engineer licensed in the State at the Contractor's expense. The Contractor shall furnish a certificate or document signed by the surveyor or civil engineer certifying that the completed lines, levels, and elevations are in conformity with the contract. The Contractor shall verify all lines, levels, and elevations indicated in the contract before any excavation or construction begins.

(B) Any discrepancy shall be immediately brought to the attention of the Officer-in-Charge and any change shall be made in accordance with the Officer-in-Charge's instruction. The Contractor shall not be entitled to any additional payment if the Contractor fails to report the discrepancies before proceeding with work within the area affected by the discrepancies.

(2) For projects of Infrastructure Design and Engineering of the Department of Design and Construction:

(A) The Officer-in-Charge shall set bench marks and control points for the Contractor's guidance. The Contractor shall furnish all other land surveys and construction stakeout necessary for the completion and acceptance of the project. All survey work shall be laid out and checked by a surveyor or civil engineer licensed in the State at the Contractor's own expense. The Contractor shall furnish a certificate or document signed by the surveyor or civil engineer certifying that the completed lines, levels and elevations are in conformity with the contract.

(B) The Contractor shall verify all lines, levels and elevations indicated in the contract before any excavation or construction begins. Any discrepancy shall be immediately brought to the attention of the Officer-in-Charge and any change shall be made in accordance with his instruction. The Contractor shall not be entitled to any additional payment if the Contractor fails to report the discrepancies before proceeding with work within the area affected by the discrepancies.

(3) For projects of other agencies, the Officer-in-Charge shall furnish all land surveys, base lines and stakes for locating the principal parts of the project together with a suitable number of bench marks adjacent to the project site except when otherwise noted in the special provisions. Except when otherwise noted in the specifications, the Officer-in-Charge shall set construction stakes establishing lines and grades and bench marks for the Contractor's guidance. The Contractor shall notify the Officer-in-Charge **not less than two working days before** a need for stakes arises. Stakes which have been set at the project site shall not be disturbed without the approval of the Officer-in-Charge.

(k) Water removal. The Contractor shall examine the site of the project and make all necessary arrangements with affected property owners for removal of water from the site. The Contractor shall provide a bridge or other means to prevent water, flowing into adjacent streets as a result of the Contractor's activities, from interfering with the traffic on such streets. The Contractor shall be responsible for all permits which may be required for removal of water from the site, including but not limited to the National Pollutant Discharge Elimination System (NPDES) permit. All costs under this subsection shall be considered incidental and shall be included in the bidder's bid prices for the various items of work.

(l) Electrical and water services. Unless otherwise specified in the invitation for bids, the Contractor, at its own expense, shall make arrangements for electrical and water services required for the performance of the contract.

(m) Traffic control

(1) The Contractor shall obtain the necessary permits from the City's Department of Transportation Services **prior to commencing operations**. The Contractor shall notify the Honolulu Police Department and the Honolulu Fire Department of the construction work in progress and the blocking of any street during construction. Warning signs of adequate size, wording, and construction shall be located and installed as directed by the City's Department of Transportation Services, and the Contractor shall abide by other directives which may be issued by the City's Department of Transportation Services to eliminate other traffic problems and hazards.

(2) Work on any City street or in any area adjacent to a City street where traffic is impeded shall be performed between the hours of 8:30 a.m. to 3:30 p.m., unless otherwise permitted by the City's Department of Transportation Services.

(3) Whenever possible, the Contractor shall maintain roadways suitable for two lanes of traffic while construction is in progress. Adequate traffic control as required by the approved permit shall be provided by the Contractor during working hours.

(4) When material excavated for substructure construction is placed adjacent to the trench or excavation, it shall be placed in such a manner as to economize space and minimize interference with traffic. If necessary, such material shall be confined by suitable bulkheads or other devices. If the street is not of sufficient width to hold excavated material without using part of an adjacent walkway, a passageway in compliance with the requirements of the ADA shall be provided and kept open at all times.

(5) When substructure excavations cross street intersections, safe crossings for vehicles and pedestrians shall be provided and maintained. Pedestrian crossings shall be of a safe nonslip material, be separate from vehicle crossing and be provided with handrails except in areas opened for vehicular traffic.

(6) During nonworking hours, all excavations on the roadway shall be covered with a safe nonskid bridging material and all excavations in the sidewalk area shall be covered with a safe, nonslip surface.

(7) The Contractor shall provide paved detours as necessary.

(8) A roadway may be closed only with the express permission of the City's Department of Transportation Services.

(9) The Contractor shall cooperate with the Officer-in-Charge, the City's Department of Transportation Services and other authorized persons in locating all warning signs, lights, walkways and detours required under this subsection. If the Contractor fails to promptly provide adequate warning signs, lights, walkways and detours, the Officer-in-Charge may provide them at the Contractor's expense. The Contractor shall pay the cost of such work to the City, or the City may deduct the cost from any moneys due the Contractor from the City.

(10) All costs under this subsection shall be considered incidental and shall be included in the bidder's bid prices for the various items of work.

(n) Locate and protect utilities. The Contractor shall make a personal investigation and inspection of the records and drawings possessed by owners of the utilities, and supplement such information by probing, actual digging, or by other means in the field if necessary to determine the actual locations of underground utilities and all branch and service lines. The Contractor shall make satisfactory arrangements with the owners of the utilities for the relocation, maintenance and protection of existing utilities and shall furnish the

Officer-in-Charge with evidence in writing that satisfactory arrangements have been made, **not less than ten days** before the commencement of the parts of the project under the contract affecting such utilities.

4.4 Contract, plans and specifications to be kept on site. The Contractor shall keep a copy of the most current plans and specifications, contract and accepted shop drawings on the site of the project readily accessible for reference.

4.5 Construction methods and equipment. The Contractor shall use proper and efficient methods and equipment for the performance of the contract. All equipment furnished by the Contractor and used on the work shall be of such size and of such mechanical condition that the work can be prosecuted in an acceptable manner at a satisfactory rate of progress and the quality of work produced will be satisfactory.

4.6 Access and Inspection. (a) Circumstances under which the City may perform inspections include but are not limited to, inspections of the Contractor's, its subcontractor's, or supplier's plant, or site of the project in order to determine:

- (1) Whether the standards set forth in section 1.1 of the General Instructions have been met or are capable of being met;
- (2) If the contract is being performed in accordance within its terms;
- (3) Whether the goods or services are acceptable by inspection of the goods or services;
- (4) The accuracy of cost or pricing data by audit of its books and records pursuant to section 3-122-175, HAR; or
- (5) Whether or not to debar or suspend a person from consideration for award of contracts pursuant to sections 3-126-11 through 3-126-18, HAR. [HAR 3-122-166]

(b) During the performance of the contract, the Contractor shall provide the Officer-in-Charge with proper and safe facilities for access to the site of the project and the shops of the Contractor, its subcontractors or suppliers. The Contractor, its subcontractor, or supplier shall provide without charge, all reasonable facilities and assistance for the safety and convenience of the person performing the inspection or testing. Such assistance may include but not be limited to installation of hoists and ladders necessary to inspect the plant or site of project.

(c) The presence or absence of an inspector shall not result in the waiver of any requirements of the contract, nor shall any act, statement or omission by an inspector constitute or be deemed a change unless the procedure for changes is followed.

(d) Other contractors of the City shall be permitted access to the site of the project when it is required for performance of their respective contracts.

(e) Covered work

(1) If a portion of the work is covered contrary to the request of the Officer-in-Charge or to requirements specifically expressed in the contract, it must, if required in writing by the Officer-in-Charge, be uncovered for the inspection and be replaced at the Contractor's expense without change in the contract time.

(2) If a portion of the work has been covered which the Officer-in-Charge has not specifically requested to inspect prior to its being covered or is not expressly required by the contract to remain uncovered for inspection, the Officer-in-Charge may request to see such work and it shall be uncovered by the Contractor. If such work is in accordance with the contract, costs of uncovering and replacement shall, by appropriate change order, be charged to the City. If such work is not in accordance with the contract, the Contractor shall pay such costs unless the condition was caused by the City or a separate contractor in which event the City shall be responsible for payment of such costs.

(3) The Contractor shall promptly correct work rejected by the Officer-in-Charge or failing to conform to the requirements of the contract, whether or not fabricated, installed or completed. The Contractor shall bear all costs of correcting such rejected work, including additional testing and inspections and compensation for any consultant services and expenses incurred by the City made necessary thereby.

(4) The Contractor shall remove from the site portions of the work which are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner.

(5) If the Contractor fails to correct nonconforming work **within seven days**, or within the time specified in the written notice, the Officer-in-Charge may correct it in accordance with section 8.2. If the Contractor does not proceed with correction of such nonconforming work within the time fixed by written notice from the Officer-in-Charge, the City may remove it and store the salvable materials or equipment at the Contractor's expense. If the Contractor does not pay the costs of such removal and storage **within ten days after** written notice, the City may upon ten additional days' written notice sell such materials and equipment at auction or at private sale and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by the Contractor, including compensation for the any consultant services and expenses made necessary thereby. If such proceeds of sale do not cover costs which the Contractor should have borne, the contract shall be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the City.

(6) The Contractor shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of the City or other contractors caused by the Contractor's correction or removal of work which is not in accordance with the requirements of the contract.

(7) Nothing contained in this subsection shall be construed to establish a period of limitation with respect to other obligations which the Contractor might have under the contract. Establishment of the time period of one year as described in section 4.25, Guarantee, relates only to the specific obligation of the Contractor to correct work, and has no relationship to the time within which the obligation to comply with the contract may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct work.

4.7 Quality of materials and equipment. (a) Materials and equipment installed as part of any permanent construction shall be new, unless otherwise specified. The contract contemplates the use of first-class materials and equipment throughout the performance of the contract, and it is agreed that any material for which no particular specification is given shall be of the highest quality of its class or kind. For the purpose of this subsection, "new" shall mean purchased specifically for the project for which award was made.

(b) Samples. Whenever requested by the Officer-in-Charge, the Contractor shall furnish samples of materials to be used in the performance of the contract. Said samples, if accepted, will be retained by the Officer-in-Charge and shall be used as the standard with which all alike materials furnished under the contract must conform. The acceptance of any sample tested by the Officer-in-Charge or the failure of the Officer-in-Charge to require the furnishing of samples shall not relieve the Contractor from performing the work in accordance with the contract.

(c) Samples and test specimens. When required by the Officer-in-Charge, test specimens or samples of materials, appliances and fittings to be used or offered for use in the performance of the contract shall be prepared and furnished by the Contractor in such quantities and sizes as may be required for proper examination and tests, with information as to their sources. The Contractor shall furnish additional test specimens and samples as directed. Unless otherwise specified in the invitation for bids, samples, test specimens, and tests, shall be considered incidental to the Contractor's performance of the contract.

(1) Test specimens and samples shall be submitted in ample time to enable the Officer-in-Charge to make such tests or examinations as may be necessary. Laboratory tests and examinations made in a laboratory other than that of the City shall be at the expense of the Contractor.

(2) Tests. Tests specified by the contract, statute, regulation or ordinance shall be made and the costs thereof shall be borne by the Contractor unless otherwise provided for in such contract, statute, regulation or ordinance. Such tests shall be conducted under the direction of the Officer-in-Charge and the Contractor shall repair any damage resulting therefrom.

(3) In addition, the Officer-in-Charge may require such tests as deemed necessary to carry out the Officer-in-Charge's duties during the performance of the work under the contract. When a test is required by the Officer-in-Charge, the Contractor under the direction of the Officer-in-Charge shall conduct such test and shall bear all of the costs, including the cost of tools, labor and materials necessary therefor.

4.8 Character of workers, methods and equipment. (a) Skilled workers. The Contractor shall employ persons who possess the skill required to properly perform the work under the contract. When required by the Officer-in-Charge, whose decision shall be final, the Contractor shall replace any employee who lacks the skill to perform the work assigned to the employee or is discourteous or disorderly while performing such work. If acceptable to the Officer-in-Charge, a person who has been so replaced may be assigned other work on the project. Any such acceptance by the Officer-in-Charge shall not relieve the Contractor from performing the work in accordance with the contract.

(1) All workers must have sufficient skill and experience to perform properly the work assigned to them. All workers engaged in special work or skilled work such as bituminous courses of mixtures, concrete pavement or structures, electrical installation, plumbing installation, or in any trade shall have sufficient experience in such work and in the operation of the equipment required to properly and satisfactorily perform all work. All workers shall make due and proper effort to execute the work in the manner prescribed in the invitation for bids.

(2) Insufficient workers. Should the Officer-in-Charge find that the work is being performed with an insufficient number of workers, the Contractor shall be required to increase the number of workers on the project.

4.9 Other contracts. The Contractor shall coordinate its operations with those of other contractors who may be employed on adjacent or related projects of the City, shall avoid interference therewith, and shall cooperate with the other contractors so as to avoid unnecessary delay or hindrance in the performance of their respective contracts. Any difference or conflict which may arise between the Contractor and the other contractors of the City in regard to their projects shall be resolved by the Officer-in-Charge, whose decision shall be final and binding.

4.10 Remedies. The Officer-in-Charge, with the approval of the Contracting Officer, may take any action under section 8, Disputes and Remedies, deemed appropriate for failure of the Contractor to comply with the requirements of sections 4.3 through 4.9.

4.11 Wages and hours. (a) Contractors shall observe and comply with all the provisions of Chapter 104, HRS, relating to wages and hours of employees on public works. The Contractor shall pay all employees on any contract with the City, the minimum basic wage rate in conformance with applicable Federal and State laws.

(b) Minimum wages. The minimum wage shall be periodically increased during the performance of the contract in an amount equal to the increase in the prevailing wages for those kinds of work as periodically determined by the State Director of Labor and Industrial Relations. Notwithstanding the provisions of the original contract entered into, if the Director of Labor and Industrial Relations determines that the prevailing wage has increased, the rate of pay of laborers and mechanics on the contract shall be raised accordingly. No additional compensation shall be made to the Contractor for failing to consider increases of the minimum wage during the duration of the contract.

(c) Overtime work. No laborer or mechanic employed on the job site shall be permitted or required to work on a Saturday, Sunday, or a legal holiday of the State or in excess of eight hours on any other day unless the laborer or mechanic receives overtime compensation for all hours worked on a Saturday, Sunday, and a legal holiday of the State or in excess of eight hours on any other day. For purposes of determining overtime compensation under this subsection, the basic hourly rate of any laborer or mechanic shall not be less than the basic hourly rate determined by the Director of Labor and Industrial Relations to be the prevailing basic hourly rate for corresponding classes of laborer and mechanics on projects of similar character in the State.

(d) Certified payrolls. Two (2) certified copies of all payrolls shall be submitted weekly to the Officer-in-Charge. The Contractor shall be responsible for the submission of certified copies of the payrolls of all subcontractors. The certification shall affirm that the payrolls are correct and complete, that the wage rates contained therein are not less than the applicable rates contained in the wage determination decision of the Director of Labor and Industrial Relations attached to the contract, and that the classifications set forth for each laborer or mechanic conform with the work the laborer or mechanic performed.

(e) Maintain payroll records. Payroll records for all laborers and mechanics working at the site of the work shall be maintained by the Contractor and its subcontractors, during the course of the work and preserved for a period of three years thereafter. The records shall contain the name of each employee, the employee's correct classification, rate of pay, daily and weekly numbers of hours worked, deductions made and actual wages paid.

(f) Availability of Payrolls. The Contractor shall make payroll records available for examination within ten (10) days from the date of a written request by a governmental agency or any authorized representative thereof. Any Contractor who: (1) fails to make payroll records accessible within ten days; (2) fails to provide information requested for the proper enforcement of this chapter within ten (10) days; or fails to keep or falsifies any record required under this chapter; shall be assessed a penalty as provided in section 104-22(b) of the HRS.

(g) Violations. If the Officer-in-Charge finds that any laborer or mechanic employed on the job site by the Contractor or any subcontractor has been or is being paid wages at a rate less than the required rate, or has not received the laborer's or mechanic's full overtime compensation, the Officer-in-Charge may take appropriate action in accordance with HRS 104-21, or the Contracting Officer may, upon recommendation of the Officer-in-Charge, by written notice to the Contractor, terminate the Contractor's right, or the right of any subcontractor, to proceed with the work or with the part of the work in which the required wages or overtime compensation have not been paid and may complete such or part by contract or otherwise, and the Contractor and its sureties shall be liable to the City for any excess costs occasioned thereby.

(h) Post wage schedule. The Contractor is required to post the applicable wage schedule in a prominent and easily accessible place at the job site. The Contractor shall give to each laborer and mechanic employed under the contract a copy of the rates of wages required to be posted.

(i) Federally funded or federally assisted projects. On federally funded or federally assisted projects, the current federal wage rate determination in effect at the time of advertising for bids is incorporated as part of the contract, and both Federal and State wage rates shall apply. Where rates for any class of laborers and mechanics differ, the higher rates shall prevail. The minimum federal wage rates shall be those in the U. S. Department of Labor Wage Determination Decision and Modifications in effect ten days prior to the bid opening date.

A copy of the wage rate determination, (including any additional classification and wage rate conformed under 29 CFR 5.5a(1)(ii)) and Davis-Bacon poster (WH-1321) shall be posted at all times at the site of work in a prominent and accessible place where it can be easily seen by the workers.

Employee Interviews. The Officer-in-Charge and the State of Hawaii Department of Labor and Industrial Relations may interview employees during working hours on the job. Failure to allow employees to be interviewed may be assess penalties described under section 104-22(b) of the HRS.

(j) Failure to comply. Failure to comply with the requirements of this section may result in disqualification from bidding on future projects.

(k) Inclusion in subcontract. The Contractor shall include this section in every subcontract for work under this Contract.

4.12 Safety and health. (a) The Contractor shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

(b) Safety program. The Contractor shall comply with chapter 396, HRS, relating to the standards of occupational safety and health and all applicable Federal, State and City laws and regulations, including but not limited to section 396-18, HRS, relating to safety and health programs for contractors for City construction projects where the bid amount is in excess of \$100,000.

(c) Responsibility. The Contractor shall designate a responsible member of its organization at the site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Officer-in-Charge.

(d) Safeguards, signs. The Contractor shall erect and maintain, as required by existing conditions and performance of the contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent sites and utilities.

(e) No loading. The Contractor shall not load or permit any part of the construction or site to be loaded so as to endanger its safety.

(f) Emergency. In an emergency affecting safety of persons or property, the Contractor shall act, at its discretion, to prevent threatened damage, injury or loss. The Contractor shall notify the Officer-in-Charge in writing of such emergency and remedial steps taken as soon as reasonably feasible. Additional compensation or extension of time claimed by the Contractor on account of an emergency shall be determined as provided in section 3.3(c), Price adjustment and section 5.3, Delay; time extensions.

4.13 Protection of pedestrians and vehicular traffic; access to property. (a) Unless otherwise specified in the invitation for bids, the requirements in this section shall be considered incidental to the Contractor's performance of the contract.

(b) Safe passage and access to site. The Contractor shall employ such methods in the performance of the contract and provide such barriers, guards, temporary bridges, detours, notices, lights, warnings, and other safeguards as may be necessary to prevent injury to persons and property, and to provide safe access to property. The Contractor shall define the line of safe passage with suitable lights, wherever the public may have access to the site of the project, during the hours from one-half hour before sunset to one-half hour after sunrise. All passages and accesses shall be in conformance with the Americans with Disabilities Act and related regulations and guidelines. All traffic controls shall conform to the requirements of the Administrative Rules of Hawaii Governing the Use of Traffic Control Devices at Work Sites On or Adjacent to Public Streets and Highways adopted by the City Director of Transportation Services, Manual of Uniform Traffic Control Devices, U.S. Department of Transportation, Federal Highway Administration, and the current Traffic Code of the City.

(c) Traffic bridges. The Contractor shall provide proper traffic bridges where necessary so that all streets, roads, lanes, alleys, driveways, and garages will be accessible to traffic at all times. These bridges shall be constructed so that their decks are flush with the pavement, and maintained free from projecting nails, splinters, or rough edges. In lieu of the traffic bridges, the Contractor may use suitable steel plates. The bridges or steel plates shall be able to support all legal highway loads permitted by law and shall have a non-skid surface. Any steel plate edges shall be in conformance with accessibility requirements pursuant to the Americans with Disabilities Act and related regulations and guidelines.

(d) Public and private right-of-way. The Contractor shall provide safe access to property abutting the site of the project when the usual means of access are obstructed by the performance of the contract. The Contractor shall provide free access to water meters, water valves, and abutting public and private property. No material or obstruction of any sort shall be placed within twenty-five feet of any fire hydrant. Fire hydrants must be readily accessible to the fire department at all times. Special attention is called to private and public rights-of-way. Driveways shall be kept open unless the owners of the property using these rights-of-way are otherwise provided for satisfactorily. During the construction of driveways and driveway ramps, satisfactory access shall be provided by the Contractor for each driveway and driveway ramp. The accesses provided by Contractor shall conform with any and all accessibility requirements pursuant to the Americans with Disabilities Act and related regulations and guidelines.

4.14 Discovery of hazardous materials. (a) Responsibility. The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the performance of the contract.

(b) Stop work. In the event the Contractor encounters on the site material or substances reasonably believed to be hazardous materials which have not been rendered harmless, the Contractor shall immediately stop work in the area affected and report the condition to the Officer-in-Charge in writing. The work in the affected area shall not thereafter be resumed except by written agreement of the City and the Contractor if in fact the material is a hazardous material and has not been rendered harmless. The work in the affected area shall be resumed in the absence of any hazardous materials, or when it has been rendered harmless, by written agreement of the City and the Contractor.

(c) Notice. The Contractor shall give any notices bearing on safety of persons or property or their protection from damage, injury or loss and any other required notices or reports and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities .

(d) Safeguards, signs. The Contractor shall erect and maintain, as required by existing conditions and performance of the contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent site and utilities.

(e) Dispute resolution. Subject to resolution by the dispute resolution procedures under section 8.6, the Contractor shall not be required pursuant to section 3.3(f) to perform without consent any work relating to hazardous materials.

4.15 Environmental pollution and hazardous materials control. (a) Environmental pollution prevention and hazardous materials control shall consist of the protection of humans and the environment from pollution during and as a result of construction operations under the contract. The control of environmental pollution and hazardous materials requires the consideration of air, water and land and involves noise, dust, and solid waste management as well as other pollutants. It is the responsibility of the Contractor to investigate and comply with all applicable hazardous materials laws, including but not limited to those relating to control and abatement. Unless otherwise specified in the invitation for bids, the requirements in this section shall be considered incidental to and part of the Contractor's performance of the contract.

(b) Explosives, hazardous materials. When use or storage of explosives or hazardous materials or equipment or unusual methods are necessary to perform work, before doing so, the Contractor shall notify the Officer-in-Charge in writing of the nature of the hazardous material, its intended use, intended duration of its presence on the premises and method of maintenance on the premises. The Contractor shall exercise utmost care in maintaining and using the explosive or hazardous material and carry on such activities under supervision of properly qualified personnel.

(c) Protection of land resources. Land resources within the project area and outside the limits of permanent work performed under the contract shall be preserved in their present condition or be restored to a natural condition that will not detract from the appearance of the surrounding area. Except in areas marked on the drawings to be cleared, the Contractor shall maintain and water trees in the construction area. Except in areas marked on the drawings to be cleared, the Contractor shall not deface, injure or destroy trees or shrubs nor remove or cut them without approval. Any tree or other landscape features scarred or damaged by the Contractor's equipment or operations shall be restored as nearly as possible to its original condition at the Contractor's expense.

(d) Water pollution. The Contractor shall comply with the provisions of Chapter 54, Water Quality Standards and Chapter 55, Water Pollution Control, of Title 11, Administrative Rules of the State Department of Health during all phases of work. The Contractor shall not pollute water resources including streams and drainage systems with fuel, oils, bituminous materials, calcium chloride, acids, construction wastes, wash waters, or

other harmful materials. Surface drainage from cuts and fills whether or not completed and from borrow and waste disposal areas shall, if turbidity producing materials are present, be held in suitable sedimentation ponds or shall be graded to control erosion to meet acceptable limits. Objectionable construction discharges shall be processed, filtered, ponded or otherwise treated prior to their discharge into a waterway or drainage system. Disposal of any material, garbage, oil, grease, chemicals, trash, and other similar materials on areas adjacent to streams or drainage systems shall be subject to the acceptance of the Officer-in-Charge. Such acceptance shall not relieve the Contractor from obtaining permits and meeting any requirements under applicable statutes, ordinances, rules, regulations or guidelines.

(e) Protection of fish and wildlife. The Contractor shall at all times perform all work in such a manner as to prevent any interference or disturbance to fish and wildlife.

(f) Dust control. The Contractor shall maintain all excavation, embankment, stockpile and all other work within or adjoining the project site free from dust which would cause a hazard or nuisance. Sprinkling, chemical treatment, bituminous treatment, or similar methods will be permitted to control dust upon acceptance by the Officer-in-Charge. Sprinkling must be repeated at such intervals as to keep all pavements and disturbed areas at least damp enough to prevent dust nuisance at all times, and the Contractor shall have sufficient sprinkling equipment on the job. Wet cutting shall be required for cement masonry blocks, concrete and asphaltic concrete pavements unless attachments are used with dry cutting equipment to capture the dust created thereby. All grinding work shall be wet. No dry powder brooming will be permitted in unconfined areas--vacuuming, wet mopping, wet sweeping, or wet power brooming may be used upon acceptance by the Officer-in-Charge.

(g) Damages and loss. The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the contract) to property caused in whole or in part by the Contractor, a subcontractor, a sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under this section, except damage or loss attributable to acts or omissions of the City or anyone directly or indirectly employed by either of them, or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under section 7.2.

4.16 Noise control. (a) The Contractor shall comply with the provisions of Chapter 46, Community Noise Control for Oahu, of the State Department of Health, Administrative Rules. when required, the Contractor shall obtain a community noise permit.

(b) Construction activities shall not create "excessive noise" when measured at or beyond the property line of the construction site for the hours before 7:00 a.m and after 6:00 p.m. of the same day.

(c) Construction activities which emit noise in excess of 95 dBA at or beyond the property line of the construction site shall be restricted to the hours between 9:00 a.m. and 5:30 p.m. of the same day.

(d) Construction activities which exceed 95 dBA at or beyond the property line of the construction site shall be prohibited on Saturdays.

(e) Construction activities which exceed the "allowable noise levels" at or beyond the property line of the construction site shall be prohibited on Sundays and on the following holidays: New Year's Day, Dr. Martin Luther King, Jr. Day, President's Day, Memorial Day, Kamehameha Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving Day, and Christmas Day.

4.17 Rubbish disposal. All unusable debris and waste materials shall be hauled away to an appropriate off-site dump area. However, with prior approval of the State Department of Health, burning may be permitted.

4.18 Restoration and precautions. (a) The Contractor shall protect property adjacent to the site of the project from damage and shall immediately restore property damaged by the Contractor to the condition it was in prior to the damage. Unless otherwise specified in the invitation to bids, the requirements in this section shall be considered incidental to the Contractor's performance of the contract.

(b) Buildings and other structures. If the site of the project passes close to or under buildings and other structures, the Contractor shall protect all such buildings and structures by suitable means from any and all damages.

(c) Dewatering

(1) The Contractor shall be responsible for the water and its control and disposal during the construction of all work covered by the contract. Dewatering shall be accomplished by suitable means. The Contractor shall repair any and all damages to property including buildings, retaining walls, etc., resulting from such dewatering operation to the satisfaction of the owners of such property. Dewatering shall be prohibited in areas subject to substantial damages to adjacent buildings and properties resulting from settlement due to dewatering.

(2) All concrete pours shall be dewatered in accordance with applicable sections of the standard specifications.

(3) The Contractor shall construct and maintain all cofferdams, drains, sumps, temporary diversions and protective works; and shall furnish, install, maintain and operate all necessary pumping and other equipment for dewatering the various parts of the work, regardless of the source of water. The Contractor shall maintain a water-free foundation to properly perform the items of work and as directed by the Officer-in-Charge. The Contractor shall maintain the work free from water for at least six hours following the placement of each unit of concrete, concrete unit masonry or concrete rubble masonry. All temporary protective works shall be removed in a manner satisfactory to the Officer-in-Charge.

(d) Pavement, curb and gutter. The Contractor shall replace, restore and repair pavements, gutters, and curbs damaged or removed by the Contractor.

(e) Fences. The Contractor shall replace fences removed by the Contractor. Precautions shall be taken to prevent livestock from escaping when fences enclosing them are removed.

(f) Grass. When lawns are disturbed by trenching, the area over the trench shall be carefully graded and replanted with similar grass spaced over the trench substantially similar to the condition it was in prior to the excavation.

(g) Trees and shrubbery. Trees and shrubbery which must be disturbed shall be transplanted under the direction of the owner or lessee of the property to some other site and, upon completion of the backfill, shall be replanted on the original site, to the satisfaction of the said owner or lessee.

(h) Property marks. The Contractor shall reference and replace marks, stakes, pipes, monuments of the property line, and similar objects which may be disturbed by the Contractor while performing the contract. Any such replacements shall be certified by a surveyor licensed by the State of Hawaii.

(i) Sidewalks, patios, driveways and other like concrete construction. When trenches are to be made across concrete sidewalks, patios, driveways, and other like concrete construction, the Contractor shall make neat cuts in the concrete with pavement saws, or other means acceptable to the Officer-in-Charge, and shall thoroughly compact the backfill and reconstruct such construction with concrete similar to the existing construction.

(j) Topsoil. Where private land under cultivation is disturbed, the Contractor shall place the upper twelve inches of topsoil to one side, which shall not be mixed with the general excavated material. After backfill has been made to within twelve inches of the surface, the topsoil shall be replaced.

(k) Excavated material. Unless other specified, all excavated material shall become the property of the Contractor and shall be hauled from the jobsite to a disposal site acceptable to the Officer-in-Charge. Hauling of wet, dripping material over public streets is not be permitted.

(l) Walls, rock, and masonry. The Contractor shall replace rock and masonry walls removed by the Contractor.

4.19 Historical and archaeological finds. All items having any apparent historical or archaeological interest discovered in the course of construction activities shall be preserved. The Contractor shall leave the archaeological find undisturbed and immediately report the find to the Officer-in-Charge so that the proper authorities may be notified.

4.20 Maintenance of site and final cleanup. (a) The requirements in this section shall be considered incidental to the Contractor's performance of the contract.

(b) Maintenance of site. The Contractor shall maintain the site of the project in an orderly and clean condition, and shall at suitable intervals and upon completion of each phase of the project, remove accumulations of rubbish or refuse materials, surplus concrete, mortar and excavated materials not required or suitable for backfill. Washings from concrete mixers or mixing boxes shall not be deposited in the drainage or sewer system of the City or on paved streets. The Contractor shall keep the project and surrounding area neat and free of dirt and dust by periodic blading, power brooming, watering or other approved means.

(c) Removal. Upon completion and before final acceptance by the Officer-in-Charge of the work performed under the contract, the Contractor shall remove rubbish, surplus or discarded materials, falsework, forms, temporary structures, field offices, project signs, signs not a part of the project, and Contractor's equipment and machinery, and shall leave the site and ground occupied by the Contractor in connection with the performance of the contract in an orderly and clean condition. Buildings constructed, altered, or worked in by the Contractor in the performance of the contract shall be left "broom clean," and stains and other blemishes resulting from the Contractor's operations, such as dropped or splattered concrete or mortar and paint, shall be removed from floors, walls, ceilings, windows, and all other exposed surfaces.

4.21 Laws, regulations. The Contractor shall be fully informed of all present and new laws, regulations, and ordinances which affect the contract and the performance thereof, including but not limited to:

- (1) Chapter 103, HRS, relating to expenditure of public money;
- (2) Chapter 103D, HRS, relating to Hawaii procurement code;
- (3) Chapter 104, HRS, relating to wages and hours of employees on public works;
- (4) Chapter 378, HRS, relating to fair employment practices;
- (5) Chapter 386, HRS, relating to worker's compensation;
- (6) Chapter 396, HRS, relating to occupational safety and health; and
- (7) Chapter 444, HRS, relating to licensing of contractors.

The Contractor shall comply with all such present and new laws, regulations and ordinances, including the giving of all notices necessary and incident to the performance of the contract. If any discrepancy or inconsistency is discovered between the contract and any such law, regulation, or ordinance, the Contractor shall forthwith report the same in writing to the Contracting Officer or the Officer-in-Charge.

4.22 Partial acceptance of project. The Officer-in-Charge may accept and place parts of the project in service as completed and the Contractor shall give proper access to such portions for this purpose. Use by the public without permission of the Officer-in-Charge shall not in any way be construed as an acceptance of the work under the contract and shall not in any way relieve the Contractor from the Contractor's obligation under the contract.

4.23 Responsibility of the contractor prior to acceptance. (a) The Contractor shall repair, reconstruct, restore, and replace the work or any part thereof which is injured, damaged or vandalized prior to acceptance

of the work by the Officer-in-Charge, by any cause whatsoever, except damage to the work due to unforeseeable causes beyond the control of and without the fault or negligence of the Contractor, including but not restricted to acts of God, such as earthquakes, tsunamis, lava flows, and acts of the public enemy or governmental authorities.

(b) Occupancy prior to acceptance. The City may occupy or use any completed or partially completed portion of the work at any stage prior to acceptance when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the Contractor's insurer. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the City and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage if any, security, maintenance, air conditioning, utilities, damage to the project and insurance, and have agreed in writing concerning the period for correction of work and commencement of the guarantee required by the contract. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld.

(c) Inspection. Immediately prior to such partial occupancy or use, the Officer-in-Charge and Contractor shall jointly inspect the area to be occupied or used in order to determine and record the condition of the area.

(d) No acceptance of non-complying work. Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the project shall not constitute acceptance of work not complying with the requirements of the contract.

4.24 Final inspection. (a) Before notifying the Officer-in-Charge that the project is substantially complete including compliance with section 4.20, Maintenance of site and final cleanup, the Contractor shall inspect the project and test all equipment with all of its subcontractors. The Contractor shall also proceed to obtain the documents required under the Contract such as but not limited to:

- (1) All written guarantees;
- (2) All "as-built" drawings;
- (3) All certified payroll affidavits if not submitted earlier;
- (4) Certificate of plumbing and electrical inspection;
- (5) Certificate of building occupancy;
- (6) Certificate of soil and wood treatments;
- (7) Certificate of water system chlorination;
- (8) Maintenance service contract;
- (9) Two (2) copies of a list of all equipment installed; or
- (10) All operating and maintenance manuals for equipment installed.

(b) "Substantially complete" means:

- (1) All utilities are connected and in working condition;
- (2) All air conditioning and other major equipment are in acceptable working condition; and/or
- (3) The building, structure, improvement, or site can be used for its intended purpose.

(c) After finding everything in order, the Contractor shall notify the Officer-in-Charge in writing that the project is substantially complete and ready for inspection.

(d) The Officer-in-Charge shall then make a determination as to whether or not the project is ready for inspection. If the Officer-in-Charge is not satisfied, the Contractor will be notified in writing of the items that require completion prior to inspection. After the Contractor complies with the Officer-in-Charge's instructions, the Contractor will again submit, in writing, a request for inspection.

(e) When the Officer-in-Charge determines that the project is substantially complete, a pre-final inspection will be conducted by the Officer-in-Charge along with representatives of other City agencies interested in the project, within seven days of receipt of the request from the Contractor.

(f) If the pre-final inspection discloses only minor discrepancies, the Officer-in-Charge shall accept the project as substantially complete and issue in writing, a list of the discrepancies that need to be corrected including all documents required by the Contract, hereinafter referred to as the "punch list", **and the time** in which the Contractor must complete the punch list. The date of acceptance of the project as substantially complete shall signify the end of the contract completion time.

(g) The Contractor shall, **within seven days** after receipt of the punch list, proceed to complete the items on the punch list. Upon completion, the Contractor shall submit a written request for a final inspection, after which, if the Officer-in-Charge finds that all discrepancies are satisfactorily corrected, the Officer-in-Charge will accept the project as completed, hereinafter referred to as "final acceptance".

(h) Noncompliance. If the Contractor fails to proceed or complete the punch list within the specified times, the Officer-in-Charge may proceed to have such work performed at the Contractor's expense, and the Contractor's sureties will be liable therefor. The City shall be entitled to reasonable attorneys' fees, consultants' fees and costs necessarily incurred by the Contractor's refusal to complete the contract and to pay such costs of corrective work.

(I) Upon final acceptance, the Contractor shall be relieved of its responsibility in maintaining and protecting the work and site and for injury to persons or property. Release of final payment shall be as specified in section 6.6.

(j) Prior to release of final payment, the Contractor shall submit, **within thirty days after** final acceptance, or within such time as the Officer-in-Charge may allow, all remaining documents required by the Contract.

4.25 Guarantee. (a) This guarantee shall be deemed supplemented to guarantee provisions provided in other sections of the specifications for the individual units and systems of units so specified.

(b) Performance. The Contractor guarantees its performance and the performance of its subcontractors under the contract.

(c) Materials and equipment. The Contractor also guarantees all materials and equipment furnished or installed under the contract against defects and poor workmanship and to be in operable condition upon final acceptance of the work or portions of the work, and that all such materials and equipment conform to the requirements of this contract and be fit for the use intended.

(d) Design. When the Contractor is responsible for the design, the Contractor guarantees the design to meet the criteria and operating requirements specified and against failure to perform in accordance with such criteria and operating requirements.

(e) Guarantee period. Unless otherwise specifically stated in the invitation for bids that a longer period is intended, the guarantee shall commence upon final acceptance of the work by the Officer-in-Charge, and shall extend for a period of one year. The Officer-in-Charge may also determine the guarantee period to commence upon acceptance of the material or equipment installed, or work performed. Furthermore, this period shall be extended from the time of correction of any defect or failure, corrected under the terms of this guarantee, for a like period of one year. The Contractor shall provide a new certificate of guarantee for the extended one-year period.

(f) Correction. The Contractor shall correct all defects or failures discovered within the guarantee period. The City will give the Contractor prompt written notice of such defects or failures following their discovery. The Contractor shall commence corrective work **within seven days** following notification and shall diligently prosecute such work to completion. The Contractor shall bear all costs of corrective work, which shall include necessary disassembly, transportation, reassembly and retesting, as well as repair or replacement of the defective materials or equipment and any necessary disassembly and reassembly of adjacent work.

(g) Noncompliance. If the Contractor fails to perform corrective work in the manner and within the time stated, the City may proceed to have such work performed at the Contractor's expense, and the Contractor's sureties will be liable therefor. The City shall be entitled to reasonable attorneys' fees, consultants' fees and costs necessarily incurred by the Contractor's refusal to complete the contract and to pay such costs of corrective work.

(h) Performance bond. Unless otherwise specifically stated in the invitation for bids that a longer period is intended, the performance bond shall be in full force and effect for the duration of the contract and for a period of one year after final acceptance of the contract by the Officer-in-Charge.

(i) Rights and remedies. The rights and remedies of the City under this provision do not preclude the exercise of any other rights or remedies provided by this contract or by law with respect to unsatisfactory work performed by the Contractor.

4.26 Joint contractor, subcontractor. (a) The Contractor shall comply with HRS 103D-302, relating to the listing of joint contractors or subcontractors. [HAR 3-122-21]

(b) Specialty work. Joint contractors and subcontractors may perform only the specialty work for which they are listed.

(c) Changes. The Contracting Officer, upon recommendation by the Officer-in-Charge, or for informal bids, the Officer-in-Charge alone, may allow changes to the original listing of joint contractors and subcontractors only if justified by the Contractor for reasons such as the joint contractor or subcontractor:

- (1) Files a petition in bankruptcy or is the subject of an involuntary petition in bankruptcy which is not dismissed within ten (10) days of filing;
- (2) Is not performing in accordance with the subject contract;
- (3) Is to perform additional work for which a joint contractor or subcontractor was not required to be listed in the bid proposal; or
- (4) For any other reason that the Contracting Officer or the Officer-in-Charge may consider justified.

(d) Subcontractual relations. The Contractor shall be responsible under the contract for the acts and omissions of its subcontractors, suppliers, and persons either directly or indirectly employed by them, as fully as the Contractor is for acts and omissions of its own employees. Nothing in the contract shall create any contractual relation between any subcontractor or supplier and the City, or any obligation on the part of the City to pay any money to, or cause to be paid any money from any subcontractor or supplier.

CHAPTER 5 - TIME AND DELAYS

5.1 Time. Time is of the essence of the contract. Performance of the contract shall be commenced on the commencement date designated in the notice to proceed and shall be completed within the number of days specified in the contract.

5.2 Overtime work. (a) Written request. If the Contractor wishes to work at such time of the day which is during the period other than the regular business hours of the City, or on a Saturday, Sunday, or legal State holiday, the Contractor shall make a written request for inspection services during such period.

(b) Notice. If such a request is made and granted, the Contractor shall notify the Officer-in-Charge **not less than twenty-four hours in advance** of the time when such inspection services are required. The Contractor shall pay the City in accordance with section 41-19.1, ROH, at the rate for the current fiscal year set by the Director, Department of Budget and Fiscal Services, or in the event that the City has retained a private construction manager, the Contractor shall pay the rate established by the private construction manager.

(c) Invoice

(1) City inspector. The City shall invoice the Contractor for overtime inspection services rendered by City inspectors.

(2) Private construction manager. The private construction manager will invoice the Contractor at the construction manager's established rate for overtime inspection.

5.3 Delay; time extensions. (a) Permits. For delays in obtaining the necessary building and/or grading permits which are extraordinary and beyond the control of the Contractor and will result in a delay of the commencement of work, the Contractor may be granted an extension of time for the performance of the contract corresponding to the delay, provided the Contractor notifies the Officer-in-Charge **immediately** upon first encountering the delay. The Contractor shall keep the Officer-in-Charge informed as to the estimated length of the requested delay.

(b) Increases in scope of work. For increases in the scope of work caused by alterations and additional work under section 3.3, Modifications, the Contractor will be granted an extension of time only if the changes are on the critical path and affect the final completion date of the contract. If the Contractor feels that an extension of time is justified, the Contractor must request it in writing when submitting the detailed cost breakdown for the change order. The Contractor must show how the final completion date will be affected based on the progress of the project and must also support the claim with schedules and statements from its subcontractors, suppliers, and/or manufacturers as to the extent of the delay.

(c) Delivery of materials and equipment.

(1) For delays in delivery of materials and equipment which occur as a result of unforeseeable causes beyond the control and without fault or negligence of both the Contractor and subcontractors or suppliers, the Contractor may be granted an extension of time provided that the Contractor complies with the procedures herein. No extension of time will be considered unless the material and equipment were ordered at the earliest possible date.

(2) No extension of time shall be granted for a delay caused by a shortage of materials unless the Contractor, **within ten days** from the beginning of the delay (unless the Officer-in-Charge grants a further period of time before the date of final payment under the contract), notifies the Officer-in-Charge in writing of the delay and submits proof that the Contractor has diligently made every effort to obtain the materials from all known sources, and further proof that the inability to obtain the materials when originally planned did in fact cause a delay in final completion of the entire work which could not be compensated for by revising the sequence of the Contractor's operations. [HAR 3-125-18]

(3) The extent of delay must be substantiated as follows:

(A) State specifically the reason or reasons for the delay. Also, explain as necessary, the effect of this delay to the other trades and to the specified completion date of the project.

(B) List the pertinent chronological events and their dates, for the project such as the following:

(i) Notice to proceed

(ii) Sample or shop drawing submittal

(iii) Sample or shop drawing return

(iv) Purchase order

(v) Factory shipment

(vi) Arrival of ship

(vii) Delivery to job site

(viii) Material installation

(ix) Specified completion of project

(x) Actual completion of project

(xi) Pertinent correspondence, telegrams, meetings and telephone conversations.

(C) Submit copies of purchase order, factory invoice, bill of lading, shipping manifest, delivery tag and any other pertinent correspondence as evidence to support the delay.

(D) Cite the period of delay and the number of days requested therefore. The period of delay shall not exceed the difference between the originally scheduled delivery date at the job site versus the actual delivery date.

(d) Other unforeseeable delays. If any delay in the completion of the work arises from causes such as acts of God; acts of the public enemy; acts of the City and any other governmental entity in either a sovereign or contractual capacity; acts of another contractor (but not the Contractor's subcontractor) in the performance of a contract with the City; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; unusually severe weather; or delays of subcontractors due to causes similar to those set forth above, then the Contractor shall be granted an extension of time provided that:

(1) The Contractor shall notify the Officer-in-Charge in writing, **within ten days** from the commencement of the delay (unless the Officer-in-Charge grants a further period of time before the date of final payment under the contract), of the causes of the delay and, if possible, the possible effects such circumstances may have on the completion date of the contract. Upon becoming aware of the extent of any such delay, the Contractor shall immediately inform the Officer-in-Charge in writing. [HAR 3-125-18]

(2) The extent of any delay must be substantiated as follows:

(A) State specifically the reason or reasons for the delay. Also, explain as necessary, the effect of this delay to other trades and to the specified completion date of the project.

(B) List the pertinent chronological events for the project and their dates, such as the following:

(i) Notice to proceed

(ii) Samples or shop drawing submittal

(iii) Sample or shop drawing return

(iv) Purchase order

(v) Delivery to job site

(vi) Material installation

(vii) Specified completion of project

(viii) Actual completion of project

(ix) Pertinent correspondence, telegrams, meetings and telephone conversations.

(C) Submit copies of purchase orders, delivery tags, and any other pertinent correspondence as evidence to support claim.

(D) Cite the period of delay and the number of days requested therefore.

(E) A statement either that the above circumstances have been cleared and normal working conditions restored as of a certain day or that the above circumstances will continue to prevent completion of the project.

(e) Other work. For subsections (b), (c), and (d), the Officer-in-Charge shall have the option of extending the contract time for only that portion of the work affected by the delay. If the Officer-in-Charge exercises this option, the Contractor shall defer work in the areas approved by the Officer-in-Charge and complete the remaining work within the time specified in the contract.

(f) Suspension.

(1) When the performance of work is totally suspended by the Officer-in-Charge for one or more days in accordance with paragraphs (1), (2), (3), or (5), of section 8.1, the contract completion date shall be revised accordingly.

(2) During periods of partial suspensions of the work, the Contractor will be granted an extension only if the partial suspension affects the final completion date of the contract. If the Contractor feels that an extension of time is justified, the Contractor must request it in writing **at least five working days before** the partial suspension will affect the critical operations in progress. The Contractor must show how the final completion date will be affected based on the progress of the project and must also support his claim with statements from his subcontractors.

(3) Evaluation. The Officer-in-Charge shall evaluate all time extension requests and shall ascertain the facts and extent of the time involved and the Officer-in-Charge's findings of the facts thereof shall be final and conclusive.

(4) No time extension will be considered for the following:

(A) Delays or suspension of work due to the fault of the Contractor, including the causes listed in paragraph (2) of section 8.1(a).

(B) Delays in arrival of materials and equipment due to the fault of the Contractor, its subcontractor or supplier in ordering, fabricating, delivery, etc.

(C) Delays caused by changes which the Officer-in-Charge determines unjustifiable due to the lack of supporting evidence or because the change is of such nature that the final completion date will not be affected.

(D) Delays caused by the failure of the Contractor to submit, on a timely basis, for approval by the Officer-in-Charge, shop drawings descriptive sheets, material samples, color samples, etc. except as covered in sections 5.3(c) and 5.3(d).

(E) Failure to submit requests for clarification on a timely basis to avoid impacting the project schedule.

(F) Delays of weather unless unusually severe weather, or unless determined by the Officer-in-Charge to be justified.

(g) Additional rights and remedies. The rights and remedies of the City provided in the contract are in addition to any other rights and remedies provided by law. [HAR 3-125-18]

CHAPTER 6 - PAYMENT

6.1 Force account. (a) When the Contractor and the Officer-in-Charge cannot agree to the price adjustment of any change in work, the Officer-in-Charge may, in accordance with section 3.3(c), Price adjustment, require that the work be performed under force account until such time that an equitable adjustment can be agreed to by both parties, provided that the Officer-in-Charge promptly and duly makes such provisional adjustments in payment or time for performance as may be reasonable. Payment for work under force account shall be as follows: [HAR 3-125-4, 3-125-13]

(b) Allowable costs. In force account, cost shall be the sum of the costs of the following:

(1) Labor. The Contractor shall receive the current wage rate including subsistence, travel allowance, and fringe benefits for actual work engaged by the hourly worker and foreman in charge of the specific force account work. Subsistence, travel allowance, and fringe benefits are the required amounts established by the State Department of Labor and Industrial Relations, any collective bargaining agreement and other employment contract generally applicable to the classes of labor employed. The Contractor shall submit the subsistence, travel allowance, and fringe benefits for each class in writing to the Officer-in-Charge for acceptance before the force account work begins. The wages for labor shall not exceed the rate of wages paid for similar labor performed under the contract, as evidenced by the record of the Contractor's payroll on file with the Officer-in-Charge.

For salaried workers, the Officer-in-Charge will determine the hourly wage rate by dividing the monthly salary plus benefits by one hundred seventy-six hours. The Officer-in-Charge shall authorize salary workers to perform the work.

An amount not to exceed fifteen per cent of the actual labor cost will be paid the Contractor. [HAR 3-125-13]

For overtime work, payment will be for one and a half times the hourly wage rate plus the actual hours of overtime for fringe benefits, and/or as required by any collective bargaining agreement. For authorized salaried workers, payment will be for the hourly wage rate times the actual hours of overtime.

(2) Insurance and tax. The Contractor will receive the projected average rate for the required insurance including property damage (excluding builder's risk), liability, workers compensation insurance premiums, State unemployment contributions, Federal unemployment taxes, social security and medicare taxes to which six per cent may be added.

The Contractor shall submit the projected average rate for taxes and insurance premium for the applicable current year for acceptance by the Officer-in-Charge.

(3) Materials. The Contractor will receive the actual cost of materials accepted by the Officer-in-Charge and entering permanently into the work under the contract including transportation charges as shown by the invoices submitted to the Officer-in-Charge.

For stock materials, used and incorporated into the work, the Contractor shall receive the actual cost as certified by the Contractor to the cost paid by the Contractor. The Officer-in-Charge will include transportation charges and taxes paid by the Contractor.

An amount not to exceed fifteen per cent of the total cost of materials will be paid the Contractor. [HAR 3-125-13]

(4) Machinery and equipment, other than small tools and minor equipment, which may be necessary or desirable to perform the work. The Officer-in-Charge may reject any machinery or equipment which the Officer-in-Charge deems unnecessary, inefficient or inadequate for the work to be performed. The term "small tools and minor equipment" shall include individual equipment or tools having a replacement value of two hundred fifty dollars or less, whether or not they are consumed in the use thereof.

(A) The rate shall be the per-hour rental rate based on the monthly rate established for said machinery or equipment in the then-current edition of the Rental Blue Book for Construction Equipment including the estimated operating cost per hour, and regional correction provided therein.

The hourly rate will be determined by dividing the monthly rate by one hundred and seventy-six. The rate includes the estimated operating cost per hour and the regional correction factor.

If no rate is listed for a particular kind, type or size of machinery or equipment, then the monthly, hourly rate shall be as agreed upon in writing by the Contractor and the Officer-in-Charge prior to the use of said machinery or equipment. The Contractor shall provide proof of the rental rates charged.

(B) For trucks not owned by the Contractor, rental rates as those established under the Hawaii State Public Utilities Commission will be used to determine the cost and will be paid for as a material item under paragraph (3).

(C) For Contractor-owned trucks not listed in the Rental Rate Blue Book, the rates shall be as agreed upon in writing by the Contractor and the Officer-in-Charge prior to the use of said trucks.

(D) Rental rates which are higher than those specified in the Rental Rate Blue Book may be allowed where such higher rate can be justified by job conditions such as work in water, on lava, etc. Request for higher rate shall be submitted in writing to the Officer-in-Charge for approval prior to the use of the machinery or equipment in question.

(E) All rental rates for machinery and equipment shall include the cost of fuel, oil, lubricants, supplies, small tools, necessary attachments, repairs, maintenance, tire wear, depreciation, storage, and all other incidentals.

(F) Transportation and/or mobilization

(i) The location from which the equipment is to be moved or transported shall be approved by the Officer-in-Charge.

(ii) Payment will be made for mobilizing and transporting the equipment or machinery to the force account work site, including loading and unloading, and back to its original location or other site, whichever cost is less. The cost of transportation shall not exceed the rates established by the Hawaii State Public Utilities Commission. If rates are nonexistent, then the rates will be determined by the Officer-in-Charge based upon the prevailing rates charged by established haulers within the locale.

(iii) Payment for self-propelled equipment or machinery will be for the cost of moving the equipment by its own power to the force account work site and back to the original location or other site, whichever cost is less.

(iv) When transporting equipment or machinery by other than its own power, payment shall be made for the transporter, if owned by the Contractor, at the hourly rate including the estimated operational rate and the applicable regional correction factor. Payment for the transporter, if not owned by the Contractor, shall be by invoice cost and paid for as a material item. Payment for the equipment or machinery shall be at the rate of "idle time" under (G).

(v) Payment for mobilization and transportation will not be made if the equipment or machinery is used on the work in any other way than upon extra work paid for under force account.

(G) Rental period

(i) Idle time. Idle time herein means the period in which the machinery or equipment designated for the specific force account work is not in use for the work. The time period shall be for a working day (8 hours). Payment shall be fifty per cent of the hourly rate excluding the estimated operational cost per hour per working day.

(ii) Standby time. Standby time herein means the period in which the machinery or equipment are standing by for the specific force account work day. A work day shall not exceed eight hours (standby time plus the operating time) unless the Officer-in-Charge authorizes the overtime. Payment shall be at the hourly rate including the estimated operational cost per hour per working day.

(iii) The rental period shall begin at the time equipment reaches the site of work, shall include each day that the machinery or equipment is at the site of the work and shall terminate at the end of the day on which the Officer-in-Charge directs the discontinuance of the use of the machinery or equipment.

(iv) Less than thirty minutes of operation will be considered a half hour of operation.

(v) Rental time will not be allowed or credited for any day on which machinery or equipment is inoperative due to its breakdown. On such days, the Contractor will be paid only for the actual hours that the machinery or equipment was in operation.

(vi) When force account work is completed within less than 8 hours, payment shall be for 8 hours.

(vii) For the purpose of determining the rental period, the continuous and consecutive days shall be the normal 8-hour shift work day, Monday through Friday excluding Saturday, Sunday, and legal holidays. Any work day to be paid less than 8 hours shall not be considered as continuous, except for equipment removed from rental for fuel and lubrication.

(viii) Overtime shall be paid for each hour in excess of the normal 8-hour shift work day at the corresponding hourly rate for daily, weekly, and monthly rates.

(5) Bond. A bond allowance up to one per cent will be added to the total sum of paragraphs (1) through (4).

(6) State excise tax. State excise tax not to exceed 4.166% will be added to the total sum of paragraphs (1) through (5).

(7) When work is performed by a subcontractor who has been approved pursuant to section 1.18 of the General Instructions or 4.26 of these General Conditions, the Contractor will receive an additional amount equal to seven per cent of the total cost of paragraphs (1) through (5), to which there shall be added the State excise tax.

(8) Percentages for fee and overhead. Not more than three line item percentages for fee and overhead, not to exceed the maximum percentages shown in subsection 3.3(c), will be allowed regardless of the number of tier subcontractors. [HAR 3-15-13]

(9) Payment for the above shall be deemed payment in full for work done under force account including superintendence, overhead, use of tools, machinery and equipment for which no rental is allowed, profit, taxes, subcontracting and other costs in connection therewith which are not provided for herein. **No payment will be made until itemized records along with receipted invoices and appropriate documents have been submitted and approved.**

(c) Records. The Contractor shall submit records of the above to the Officer-in-Charge at the end of each day on Daily Force Account Report sheets (Form DF-49), Exhibit "G", issued by the Officer-in-Charge. Such records submitted shall be subject to the approval of the Officer-in-Charge as evidenced by the Officer-in-Charge's signature thereon. The Contractor shall submit a statement covering the cost of all of the above items not later than the tenth day of the month following the month in which the costs were incurred.

6.2 Payment. (a) The Contractor shall be paid the contract price as full compensation for the performance of the contract. Should there be a discrepancy between the basis of payment outlined in the standard specifications and that called for in the Contract, the Contract shall govern. If an error, omission or misstatement shall be discovered in the quantities or measurements stated in the Contract, the same shall not vitiate the contract, or release the Contractor or his surety or sureties from performing the contract, or affect the price agreed to under the contract, or excuse the Contractor from any of the obligations or liabilities under the contract, or entitle him to damages or compensation, except as provided herein.

(b) Lump sum contracts. For lump sum contracts, the contract price shall be the result obtained by first reducing the amount designated as the total sum bid in the award by the amount included therein for allowances and contingencies, and adding thereto or deducting therefrom any extra cost or any reduction in cost, respectively to the City as a result of supplemental agreements in writing and written orders.

(c) Unit priced items. Payment shall be made for the actual quantities of units incorporated into the contract multiplied by the unit prices of the contract items, provided that where the quantity of any item varies more than fifteen per cent above or below the estimated quantity stated in the contract, payment shall be made at the adjusted unit price in accordance with section 3.3(d), Variations in estimated quantities.

(d) Allowance items. Payment for allowance items shall be included in the monthly estimate for progress payment upon submittal of paid invoices. Unless otherwise specified in the invitation for bids, the Contractor shall be reimbursed from the allowance items as follows:

(1) For utility allowance, no markup of any kind will be allowed.

(2) For off-duty police officers, the reimbursement shall also include the administrative fees charged by the Honolulu Police Department, plus twenty per cent inclusive of any administrative costs, overhead/profit, bond fee, and applicable taxes.

(e) Mobilization. Mobilization will be paid for on a lump sum basis. Partial payments will be made as follows:

(1) When five per cent of the total sum bid is earned, fifty per cent of the amount bid for mobilization will be paid;

(2) When ten per cent of the total sum bid is earned, seventy-five per cent of the amount bid for mobilization will be paid; and

(3) When twenty per cent of the total sum bid is earned, one hundred per cent of the amount bid for mobilization will be paid.

Nothing herein shall be construed to limit or preclude partial payments otherwise provided for by the contract.

6.3 Payments during performance of work. (a) Monthly estimate and payment. The Officer-in-Charge shall, not later than the fifteenth day of each month during the performance of the contract, make an estimate of the amount of work completed in accordance with the contract during the immediately preceding month for the construction items listed in the performance schedule described in section 4.3(d). In arriving at an estimate of work completed during the month, the Officer-in-Charge shall deduct sufficient allowance for any incomplete or unprotected work or to provide for any contingencies for remedy of defects or damage to said work or for the necessity of performing any part of the work over again to cure defects or damage.

(b) Retention for satisfactory progress. Pursuant to section 103-32.1, HRS, If the Officer-in-Charge finds that satisfactory progress is being made:

(1) Progress payments to the Contractor for the work completed for the month shall be for a sum equal to ninety-five per cent of the above estimate (after accounting for any deductions and contingencies), less previous payments and sums withheld by the City pursuant to subsection (a).

(2) After the first fifty per cent of the work to be performed under the contract has been completed and progress is satisfactory, progress payments will be for one hundred per cent of the above estimate less:

(A) Five per cent withheld from the previous payments to the Contractor during the performance of the first fifty per cent of work required under the contract;

(B) Other sums withheld by the City pursuant to the contract; and

(C) Previous payments.

(c) Unsatisfactory progress. The Officer-in-Charge may continue to make progress payments to the Contractor for a sum equal to ninety-five per cent of the above estimates, less previous payments and sums withheld by the City pursuant to the contract until such time that satisfactory progress is achieved by the Contractor.

(d) Delay in completion of work. Upon written request from the Contractor, if the completion of the work under the contract is being delayed through no fault of the Contractor, the Contractor may request for the release of all or part of the amount withheld. The Contracting Officer, upon recommendation of the Officer-in-Charge, may make additional payments from the amount withheld to the extent that such amount withheld is not required for the protection of the City. The Contracting Officer may require the Contractor to submit tax

clearances from the State and Internal Revenue Service and surety clearance as a condition to the release of any retention.

(e) Substitution with general obligation bonds. Pursuant to HRS 103-32.2, the Contractor may request, and the Contracting Officer, upon recommendation of the Officer-in-Charge, may enter into an agreement to allow the Contractor to withdraw from time to time the whole or any portion of the sums retained as set forth above upon depositing with the Contracting Officer any general obligation bond of the State or its political subdivisions with a market value not less than one hundred ten per cent of the sum to be withdrawn.

6.4 Payment for delivered materials or equipment. (a) No payment for any material or equipment delivered to the site of the work under the contract will be made until said material or equipment is incorporated into the parts of the project required to be constructed under the contract.

(b) Specialized or special ordered materials, equipment. The Officer-in-Charge may, to the extent provided for in the contract, include in the monthly estimate for progress payment the delivered cost of specialized materials, special ordered materials or equipment usable only for the contract. Such inclusion in the monthly estimate will be allowed only if all costs are substantiated by evidence of delivery and payment, and only for such materials or equipment as are specifically described or referred to in the contract as being the subject matter for such inclusion in the monthly estimate for progress payment. Payment to the Contractor shall not terminate the Contractor's responsibility or ownership of such materials or equipment until incorporated in place and accepted by the Officer-in-Charge. The Contractor shall be responsible for the safekeeping of such specialized materials or equipment until incorporated into the work and accepted by the Officer-in-Charge. The amount included for payment under this subsection shall be subject to the retention requirement.

6.5 Final payment. (a) Final payment. After final acceptance by the Officer-in-Charge, the Contractor will be paid the balance due in accordance with the Officer-in-Charge's final estimate of the construction actually performed and approved by the Contractor, provided that final payment will be made only with the approval of the Contracting Officer or, for improvement districts, the City Council and upon submittal of the following to the Contracting Officer:

- (1) Two copies of the list of equipment installed or provided under the contract, listing the description, make, model, serial number, cost, and location of the equipment or room number in which it is located ;
- (2) Written consent of the surety or sureties on the Contractor's bonds;
- (3) Tax clearances from the director of taxation of the State and the Internal Revenue Service; and
- (4) Completed form DF-P-65 (Exhibit "K"), acknowledging any outstanding claims arising out of the performance of the Contractor's work.
- (5) Evidence of continuing insurance as required in section 7.1.

(b) Equipment. Equipment as specified in subsection (a) is defined as any item such as a water heater that can be removed with a hand tool, or like an air conditioner, is capable of being moved or transferred to another location, and is accessible to tagging with an identification number such as a generator.

(c) Failure to comply. If the Contractor delays or fails to comply with the requirements of this section, the Contracting Officer, upon recommendation of the Officer-in-Charge and without further obligation to the Contractor, may take any or all of the following actions:

- (1) Upon notice from the State Department of Taxation or Internal Revenue Service, assign payment to the appropriate tax agency.
- (2) Unilaterally, use the final payment estimate of the Officer-in-Charge as the final payment to the Contractor.
- (3) Determine the Contractor to be nonresponsible which may jeopardize the Contractor's future status as a qualified bidder.

6.6 Prompt payment by Contractors to subcontractors. Any money, other than retainage, paid to a Contractor shall be dispersed to subcontractors within ten days after receipt of the money in accordance with the terms of the subcontract; provided that the subcontractor has met all the terms and conditions of the subcontract and there are no bona fide disputes; and upon final payment to the Contractor, full payment to

the subcontractor, including retainage, shall be made within ten days after receipt of the money; provided that there are no bona fide disputes over the subcontractor's performance under the subcontract. [HAR 3-125-23]

6.7 Payment in bonds. When the contract is for an improvement district project, payment to the Contractor may be made in either cash or improvement district bonds.

6.8 Assignment of money. No money receivable under the contract is transferable, or otherwise assignable, without the written consent of the Contracting Officer. The rights of the assignee to monies due or to become due to the Contractor shall be subject to section 8.5, Authority to withhold money due or payable. [HAR 3-125-14]

CHAPTER 7 - INSURANCE; PERFORMANCE AND PAYMENT BONDS

7.1 Insurance. (a) Required coverages. The Contractor shall procure or cause to be procured and maintain (as provided herein), at no cost to the City, during the life of this contract and any extensions thereof, or until such time as action against the Contractor or subcontractor for death, injuries, losses and damages is barred by the provisions of Chapter 657, HRS, the following types of insurance to cover the operations under the contract, and all other insurance that may be required under the laws, ordinances or regulations of any governmental authority:

(1) Workers Compensation and Employers Liability Insurance. The Contractor shall maintain workers compensation and employers liability insurance. Workers compensation coverage shall be in accordance with State statutes. Employers liability and/or commercial umbrella limits shall be not less than \$1,000,000 each accident or otherwise as set forth in the Special Provisions. The alternate employer endorsement (WC 00 03 01A) shall be attached showing the City in the schedule as the alternate employer.

(2) Commercial General and Umbrella Liability Insurance.

(A) Contractor shall maintain commercial general liability (CGL) and if necessary commercial umbrella insurance with limits of not less than \$1,000,000 per occurrence, or otherwise as set forth in the Special Provisions. If such CGL insurance contains a general aggregate limit, it shall apply separately to this location or project. CGL insurance shall be written on ISO occurrence form, CG 00 01 (or a substitute form providing equivalent coverage), and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, and liability assumed under an insured contract (including the tort liability of another assumed in a business contract). There shall be no endorsement or modification of the CGL limiting the scope of coverage for liability arising from pollution, explosion, collapse, underground property damage or employment-related practices. The City shall be included as an insured under the CGL, using ISO additional insured endorsement CG 20 10 (or equivalent), and under the commercial umbrella, if any. The City's Design Engineers, Architects and/or Surveyors, and Construction Manager shall be included as insureds, using ISO additional insured endorsement CG 20 32 (or equivalent), and under the commercial umbrella, if any.

(B) Continuing Completed Operations Liability Insurance. Contractor shall maintain commercial general liability (CGL) and if necessary, commercial umbrella liability insurance with limits of not less than \$1,000,000 each occurrence or otherwise as set forth in the Special Provisions for at least 5 years following final acceptance of the work, or for such other period as specified in the Special Provisions. Continuing CGL insurance shall be written on ISO occurrence form CG 00 01 10 93 (or equivalent form) and shall, at minimum, cover liability arising from products-completed operations and liability assumed under an insured contract. Continuing CGL insurance shall have a products-completed operations aggregate of at least two times its each occurrence limit. Continuing commercial umbrella coverage, if any, shall include liability coverage for damage to the insured's completed work, equivalent to that provided under ISO form CG 00 01.

(3) Business Auto and Umbrella Liability Insurance. Contractor shall maintain business auto liability (including no-fault coverage) and if necessary, commercial umbrella liability insurance with limits of not less than \$1,000,000 per accident, or otherwise as set forth in the Special Provisions. Such insurance shall cover liability arising out of any auto (including owned, hired, and non-owned autos) used in the performance of this contract. Business auto coverage shall be written on ISO form CA 00 01, CA 00 05, CA 00 12, CA 00 20, with appropriate Hawaii endorsements, or a substitute form providing equivalent liability coverage. If necessary,

the policy shall be endorsed to provide contractual liability coverage equivalent to that provided in the 1990 and later editions of CA 00 01.

(4) Professional Liability Insurance. If Contractor is required to perform professional design and/or engineering services, Contractor shall provide professional liability insurance, covering the Contractor, any design professionals hired by Contractor, and or any subcontractors, and their respective employees and agents for liability arising out of errors, omissions, or negligence in the performance of professional services under the contract. Limits shall be not less than \$1,000,000 per claim, or otherwise as set forth in the Special Provisions. Such insurance shall remain in full force and effect continuously for the period of design and construction of the work, and for an additional period following substantial completion of construction, as set forth in the Special Provisions, provided that such coverage is reasonably available at commercially affordable premiums, as mutually determined and agreed.

(5) Property Insurance.

(A) Contractor shall purchase and maintain in force property insurance on the entire work at the site, in an amount equal to the full replacement cost of the work, or the initial contract sum (including any subsequent modifications thereto), whichever is greater. Limits applicable to earthquake, flood and/or windstorm, if required herein, shall be as close to the above amounts as is reasonably available, and subject to the review and approval of the City. Such property insurance shall be maintained in effect as required in the Contract documents or otherwise as mutually agreed in writing by all parties. This insurance shall name as insured the City, the Contractor, and all subcontractors in the work.

The insurance required shall be written to cover all risks of physical loss and shall insure against the perils of fire and extended coverage, including theft, vandalism, malicious mischief, collapse and, unless otherwise set forth in the contract documents, earthquake, flood and windstorm, and shall cover reasonable compensation for architects' services and expenses made necessary by an insured loss, and the cost of removing debris, including demolition as may be made legally necessary by the operation of any law, ordinance or regulation.

Such insurance shall cover the entire work at the site, portions of the work located away from the site but intended for use at the site, and portions of the work in transit. The policy shall include as insured property buildings or structures, and all fixtures, materials, supplies, machinery and equipment to be used in or incidental to the work, scaffolding, falsework, fences and temporary buildings located at the site. (B) The contractor shall purchase and maintain Boiler and Machinery insurance required by the contract documents or by law, covering insured objects during installation and testing and until final acceptance. This insurance shall name as insured the City the Contractor and all subcontractors in the work.

(C) Partial occupancy or use of the work shall not commence until the insurance company or companies providing insurance as required have consented to such partial occupancy or use. Contractor shall take reasonable steps to obtain consent of the insurer(s) and Contractor and City agree to take no action, other than upon mutual written consent, with respect to occupancy for use of the work that could lead to cancellation, lapse, or reduction of insurance.

(D) Contractor shall be responsible for any and all loss or damage to Contractor's equipment, tools and other personal property, and may at its option purchase insurance to cover such property and equipment.

(b) GENERAL CONDITIONS, applicable to all insurance herein required, unless otherwise specified above:

(1) As used herein, "City" shall mean the City and County of Honolulu, its elected and appointed officials, employees, agents and servants.

(2) Except for Professional Liability insurance required in 7.1(a)(4) above, Contractor waives all rights against the City for recovery of damages to the extent such damages are covered by the insurance required herein.

(3) All insurance required herein shall apply as primary insurance with respect to any other insurance or self-insurance programs afforded to the City.

(4) Subcontractors Insurance. Contractor shall either:

(A) Include all subcontractors as insureds under all insurance set forth in paragraphs 7.1(a), above;
OR

(B) Cause each subcontractor employed by Contractor to purchase and maintain in insurance of the types specified above. Contractor shall obtain and maintain evidence of subcontractors' insurance, and if

requested by City, Contractor shall furnish copies of certificates of insurance evidencing coverage for each subcontractor.

(5) Cross-Liability coverage. If Contractor's liability policies do not contain the standard ISO separation of insures provision, or a substantially similar clause, they shall be endorsed to provide cross-liability coverage.

(6) The Contractor is responsible for paying any portion of any loss not covered because of the operation of any deductible applicable to the insurance required herein. If the City is damaged by the failure of the contractor to maintain insurance as required in this paragraph, then the Contractor shall bear all reasonable costs properly attributable to that failure.

(7) Evidence of Insurance.

(A) Upon execution of the contract by Contractor, Contractor shall furnish City with a certificate(s) of insurance, executed by a duly authorized representative of each insurer, showing compliance with insurance requirements set forth in paragraphs 7.1(a)(1), (2) and (3) above.

(B) Prior to commencing the work, Contractor shall furnish City with a certificate(s) of insurance, executed by a duly authorized representative of each insurer, showing compliance with the insurance required under paragraphs 7.1(a)(4) and (5) above.

(C) With respect to continuing insurance as required under section 7.1(a)(2)(B) and 7.1(a)(4) above, Contractor shall provide certificate(s) of insurance evidencing such coverage at the time of final payment, and thereafter whenever requested by the City.

(D) All certificates shall provide for 60 days written notice to City prior to the cancellation or material change of any insurance referred to therein. The words "endeavor to" and "but failure to mail such notice shall impose no obligation or liability of any kind upon the company, its agents or representatives" shall be deleted from the certificate form's cancellation provision.

(E) Contractor shall provide certified copies of all insurance policies required above within 10 days of the City's written request for said copies.

(F) Failure of the City to demand such certificate or other evidence of full compliance with these insurance requirements or failure of City to identify a deficiency from evidence that is provided shall not be construed as a waiver of Contractor's obligations to maintain such insurance.

(G) Endorsements; other requirements.

(i) Commercial General and Umbrella Liability Insurance and Business Auto and Umbrella Liability Insurance shall name the City as additional insured.

(ii) Show the certificate holder as the Director of the Department of Budget and Fiscal Services, 530 South King Street, Honolulu, Hawaii, 96813; and

(iii) Include the contract and project numbers, and name of the project.

(8) Failure to Maintain Required Insurance

(A) Failure to maintain the required insurance may result in suspension or termination of this contract at City's option.

(B) The City shall have the right, but not the obligation, of prohibiting Contractor or any of its subcontractors from entering the project site until Contractor has provided certificates or other evidence that insurance has been placed in complete compliance with these requirements and such certificates have been approved by the City.

(C) If the Contractor fails to maintain the insurance as set forth herein, the City shall have the right, but not the obligation, to purchase said insurance at Contractor's expense.

(9) No representation of coverage adequacy. By requiring insurance herein, the City does not represent that coverage and limits will necessarily be adequate to protect Contractor, and such coverage and limits shall not be deemed as a limitation on Contractors' liability under the indemnities granted to the City under this contract.

(10) The City reserves the right to require additional kinds or amounts of insurance, as may be mutually agreed from time to time.

7.2 Indemnification. (a) The Contractor shall be responsible for all damages to persons or property, including work of other contractors, arising from or relating to its operations, the prosecution of the assigned work or the use of the subject premises by Contractor, its employees, agents, representatives, or subcontractors; provided, however, that the Contractor shall not be responsible for such portion of damages, if any, proximately caused by the negligence or intentional misconduct of the City. Contractor shall indemnify and save the City and all of its elected and appointed officials, volunteers, agents and employees harmless

against any liability, claims, demands or causes of action of any nature whatsoever for damages of any kind as above set forth, and agrees at Contractor's expense to defend any legal or other action brought against the City, its elected and appointed officials, agents and employees founded upon any such liability, claim, demand or cause of action, and pay any attorneys' fees incurred by the City, its elected officials, volunteers, agents and employees in connection therewith.

(b) Worker's compensation law. The Contractor shall save harmless the City its departments, and all of their officers, consultants, representatives, employees or agents, and the construction manager from all suits, actions or claims of any character brought on account of any claims or amounts arising or recovered under the Workers' Compensation Law or any other law, by-law, ordinance, order or decree.

(c) Copyright or patent. If the Contractor is required or desires to use any design, device, material or process covered by letters of patent or copyright, the right for such use shall be procured by the Contractor from the patentee or owner. The Contractor shall indemnify and hold harmless the City and its departments, the State of Hawaii, the construction manager, the architect-engineer, and affected third party, from any and all claims for infringement by reason of the use of any such patented design, device, material or process, or any trademark or copyright in connection with the work to be performed under the contract, and shall indemnify the City and its departments, the State of Hawaii, the construction manager, and the architect-engineer, for any costs, expenses and damages which it may be obliged to pay by reason of any such infringement at any time during the prosecution or after the completion of the work.

7.3 Payment guarantee. The Contractor guarantees the payment of all just claims for materials, supplies, tools, labor and other just claims against the Contractor or any subcontractor in connection with this Contract, and shall deliver the project free and clear of any liens. Contractor's bond, if required, will not be released by final acceptance and payment by the City unless all such claims are paid or released, or so much of the monies due or to become due the Contractor under the contract as shall be considered necessary by the Contracting Officer upon recommendation by the Officer-in-Charge may be retained by the City. Should any suit or claim be filed against the Contractor, the City upon consultation with its Corporation Counsel may retain, from any monies due to the Contractor, such amount or amounts as may be deemed necessary by the City until such suits or claims have been finally settled and determined and upon satisfactory evidence of such settlement of such suits or claims the money retained shall be paid to the Contractor.

7.4 Contract performance and payment bonds. (a) Acceptable contract performance and payment bonds. The Contractor shall provide, at no cost to the City, contract performance and payment bonds. Acceptable contract performance and payment bonds shall be limited to:

- (1) Surety bond underwritten by a company licensed to issue bonds in this State;
- (2) Legal tender; or
- (3) A certificate of deposit; credit union share certificate; or cashier's, treasurer's, teller's, or official check drawn by, or a certified check accepted by a bank, a savings institution, or credit union insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration, and payable at sight or unconditionally assigned to the Director of the Department of Budget and Fiscal Services, City and County of Honolulu.

(A) These instruments may be utilized only to a maximum of \$100,000.

(B) If the required security amount totals over \$100,000, more than one instrument not exceeding \$100,000 each and issued by different financial institutions shall be accepted. [HAR 3-122-222]

(b) When required. Performance and payment bonds shall be required when the price of the contract is \$25,000 or more and each shall be in an amount equal to one hundred per cent of the amount of the contract price. The performance and payment bonds shall be delivered by the Contractor to the City along with the executed contract. If the Contractor fails to deliver the required performance and payment bonds, the Contractor's award shall be canceled, its bid security enforced, and the Contracting Officer may award the contract to the next lowest bidder. [HAR 3-122-224]

(c) Bond forms. The Contractor shall execute the surety performance and payment bond forms provided with the Contract.

If the Contractor intends to submit other than surety bonds, the Contractor may request of the Contracting Officer, the bond form to be submitted with security other than surety bond, or the Contractor may submit the performance and payment security along with its own bond form which shall be in conformance with the form attached hereto as Exhibits "D" and "E". [HAR 3-122-228]

(d) Payment claims against the bond

(1) Every person who has furnished labor or material to the Contractor for the work provided in the contract for which a payment bond or a performance and payment bond is furnished under this section, and who has not been paid amounts due before the expiration of a period of ninety days after the day on which the last of the labor was performed or material was furnished or supplied, for which a claim is made, may institute an action for the amount, or balance thereof, unpaid at the time of the institution of the action against the Contractor or Contractor and its sureties, on the payment bond and have their rights and claims adjudicated in the action, and judgment rendered thereon; subject to the City's priority on the bond.

As a condition precedent to any such suit, written notice shall be given by registered or certified mail to Contractor and surety, **within ninety days** from the date on which the person did or performed the last labor or furnished or supplied the last of the material for which claim is made, stating with substantial accuracy the amount claimed and the name of the party to whom the material was furnished or supplied or for whom the labor was done or performed.

(2) Every suit instituted upon a payment bond shall be brought in the circuit court of the circuit in which the project is located, but no suit shall be commenced after the expiration of one year after the day on which the last of the labor was performed or material was supplied for the work provided in the contract. The obligee named in the bond need not be joined as a party in any suit.

(3) If the full amount of the liability of the Contractor or the Contractor and its sureties on the security is insufficient to pay the full amount of the claims, then, after paying the full amount due the City, the remainder shall be distributed pro rata among the claimants. [HAR 3-122-227]

(4) Certified copies of bonds may be requested and obtained by any person upon payment of the costs of reproduction and certification of the bonds, and postage. A certified copy of a bond shall be prima facie evidence of the contents, execution, and delivery of the original. [HAR 3-122-228]

(e) Contracts with Federal funds. In addition to the requirements of this section, whenever a contract is partially or fully funded with Federal funds, the surety companies shall be those listed in the latest issue of the U. S. Treasury Circular 570.

CHAPTER 8 - DISPUTES AND REMEDIES

8.1 Suspension of work. (a) The Officer-in-Charge may, by written order, suspend the work, either in whole or in part for periods as the Officer-in-Charge may deem necessary for any cause, including but not limited to:

(1) Weather or soil conditions considered unsuitable for prosecution of the work;

(2) Failure on the part of the Contractor to:

(A) Correct conditions unsafe for the general public or for the workers;

(B) Carry out orders given by the Officer-in-Charge;

(C) Perform the work in strict compliance with the provisions of the contract;

(D) Provide adequate supervision on the jobsite; or

(E) Maintain current liability insurance coverages.

(3) Whenever a redesign that may affect the work is deemed necessary by the Officer-in-Charge;

(4) Unacceptable noise or dust arising from the construction even if it does not violate any law or regulation; or

(5) The convenience of the City. [HAR 3-125-7]

(b) Partial and total suspension. Suspension of work on some but not all items of work shall be considered a "partial suspension". Suspension of work on all items shall be considered "total suspension". The period of suspension shall be computed from the date set out in the written order for work to cease until the date of the order for work to resume. [HAR 3-125-7]

(c) Reimbursement to Contractor. In the event that the Contractor is ordered by the Officer-in-Charge in writing as provided herein to suspend all or part of the work under the contract in accordance with subsections (a)(3), (a)(4), or (a)(5), the Contractor may be reimbursed for actual money expended towards the project during the period of suspension. No allowance will be made for anticipated profits. [HAR 3-125-7]

(d) Cost adjustment. If the performance of all or part of the work is suspended for reasons beyond the control of the Contractor, an adjustment shall be made for any increase in the cost of performance of the contract (excluding profit) necessarily caused by such suspension, and the contract modified in writing accordingly. However, no adjustment under this section shall be made for any suspension:

(1) To the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor; or

(2) For which an adjustment is provided for or excluded under any other provision of the contract. [HAR 3-125-7]

(e) Claims for adjustment. Any adjustment in contract price made pursuant to this section shall be determined in accordance with the provisions on changes and claims for adjustment. Claims for compensation shall be filed in writing with the Officer-in-Charge **within thirty days** after the date of the order to resume work or the claims will not be considered. Together with the claim, the Contractor shall submit substantiating documents covering the entire amount shown on the claim. The Officer-in-Charge shall take the claim under consideration and may make such investigations as are deemed necessary and shall be the sole judge as to the equitability of the claim and the Officer-in-Charge's decision shall be final. [HAR 3-125-7]

(f) No adjustment. No provision of this section shall entitle the Contractor to any adjustments for delays due to failure of surety, for suspensions made at the request of the Contractor, for any delay required under the contract, for suspensions, either partial or whole, made by the Officer-in-Charge under the provisions in subsection (a)(2). [HAR 3-125-7]

(g) Contractor's responsibilities. In case of suspension in the performance of the work under the contract from any cause whatsoever, the Contractor in addition to being responsible for performing the work under the contract shall:

(1) Indemnify and save the City and its officers and employees harmless from liability for any injury or damage occurring during the period that the performance of the contract is suspended;

(2) Be responsible for all materials and equipment delivered to the site of the project, including materials and equipment for which Contractor has received partial payment;

(3) Properly store the materials and equipment which have been partially paid for by the City or which have been furnished by the City;

(4) Remove immediately as directed by the Officer-in-Charge all surplus materials, equipment, and rubbish;

(5) Neatly and compactly store all materials and equipment on the site of projects within public highways or streets so as not to impede traffic or interfere with the use of public utilities or facilities;

(6) Provide suitable drainage and erect such temporary structures as are necessary to protect the project or parts of the project from damage;

(7) Properly and continuously maintain in an acceptable growing condition all living material in newly established plantings, seedlings, and sodding furnished under this contract; and

(8) Continue to maintain liability insurance coverages. [HAR 3-125-7]

8.2 Termination for default for nonperformance or delay; damages for delay. (a) Default. If the Contractor refuses or fails to perform the work, or any separable part thereof, with such diligence as will assure its completion within the time specified in the contract, or any agreed upon extension thereof, fails to complete said work within such time, or commits any other substantial breach of the contract, and further fails

within seven days after receipt of written notice from the Officer-in-Charge to commence and continue correction of the refusal or failure with diligence and promptness, the Contracting Officer may, upon recommendation by the Officer-in-Charge, by written notice to the Contractor, declare the Contractor in breach and terminate the Contractor's right to proceed with the work or the part of the work as to which there has been delay or other breach of contract. In this event the City may take over the work and perform the same to completion, by contract or otherwise, and may take possession of, and utilize in completing the work, the materials, appliances, and plant as may be on the site of the work and necessary therefor. Whether or not the Contractor's right to proceed with the work is terminated, the Contractor and the Contractor's sureties shall be liable for any damage to the City resulting from the Contractor's refusal or failure to complete the work within the time specified. [HAR 3-125-18]

Any of the following causes may be deemed by the City to be a default and result in Contractor's termination under the contract:

- (1) Failure to commence work within the time specified in the notice to proceed;
- (2) Failure to perform the work with sufficient workers and equipment or with sufficient materials to assure the prompt completion of said work;
- (3) Failure to comply with orders of the Officer-in-Charge;
- (4) Discontinuation of the prosecution of the work;
- (5) Failure to resume work which has been discontinued within a reasonable time after notice to resume;
- (6) Insolvency or is declared bankrupt, or commits any act of insolvency or bankruptcy;
- (7) Allows any final judgment to stand against the Contractor unsatisfied for a period of ten days;
- (8) Assignment for the benefit of creditors;
- (9) Unauthorized changes in the subcontractor listing submitted with the Contractor's bid; or
- (10) Failure to correct deficiencies or to complete the contract.

(b) Liquidated damages

- (1) Upon termination. If fixed and agreed liquidated damages are provided in the contract, and if the City so terminates the Contractor's right to proceed, the resulting damage will consist of the liquidated damages for the time as may be required for final completion of the work.
- (2) In absence of termination. If fixed and liquidated damages are provided in the contract, and if the City does not terminate the Contractor's right to proceed, the resulting damage will consist of liquidated damages until the work is completed or accepted. [HAR 3-125-18]

(c) Time extension. The Contractor's right to proceed shall not be so terminated nor shall the Contractor be charged with resulting damage if the delay in the completion of the work was not the fault of the Contractor as in section 5.3, Delay; time extensions. [HAR 3-125-18]

(d) Additional rights and remedies. The rights and remedies of the City provided in this section are in addition to any other rights and remedies provided by law or under this contract. [HAR 3-125-18]

8.3 Termination for convenience. (a) Termination. The Contracting Officer may, when the interests of the City so require, terminate the contract in whole or in part, for the convenience of the City. The Contracting Officer, upon recommendation by the Officer-in-Charge, shall give written notice of the termination to the Contractor specifying the part of the contract terminated and when termination becomes effective. [HAR 3-125-22]

(b) Contractor's obligations. The Contractor shall incur no further obligations in connection with the terminated work, and on the date set in the notice of termination the Contractor will stop work to the extent specified. The Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work subject to the City's approval. The Officer-in-Charge may direct the Contractor to assign the Contractor's right, title, and interest under terminated orders or subcontracts to the City. The Contractor must still complete the work not terminated by the notice of termination and may incur obligations as necessary to do so. [HAR 3-125-22]

(c) Right to construction and goods. The Officer-in-Charge may require the Contractor to transfer title and deliver to the City in the manner and to the extent directed by the Officer-in-Charge:

(1) Any completed constructions; and

(2) The partially completed construction, goods, materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "construction material") as the Contractor has specifically produced or specially acquired for the performance of the terminated part of the contract.

The Contractor shall protect and preserve property in the possession of the Contractor in which the City has an interest. If the Officer-in-Charge does not exercise this right, the Contractor shall use its best efforts to sell the construction, goods, and construction materials in accordance with the standards of section 490:2-706, HRS. This in no way implies that the City has breached the contract by exercise of the termination for convenience clause. [HAR 3-125-22]

(d) Compensation

(1) The Contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data, submitted to the extent required by subchapter 15, chapter 3-122, HAR, bearing on such claim. If the Contractor fails to file a termination claim **within one year** from the effective date of termination, the Contracting Officer may, upon recommendation of the Officer-in-Charge, pay the Contractor, if at all, an amount set in accordance paragraph (3)(B).

(2) The Officer-in-Charge and the Contractor may agree to a settlement provided the Contractor has filed a termination claim supported by cost or pricing data submitted as required and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the City, the proceeds of any sales of construction, goods, and construction materials under paragraph (3)(C), and the contract price of the work not terminated.

(3) Absent complete agreement under paragraph (2), the Contracting Officer shall pay the Contractor the following amounts, provided payments under paragraph (2) shall not duplicate payments under this subsection for the total (without duplication of any items) of:

(A) The cost of all contract work performed prior to the effective date of the notice of termination plus a five per cent markup on actual direct costs on the portion of the work (the markup shall not include anticipatory profit or consequential damages) less amounts paid or to be paid for completed portions of the work; provided, however, that if it appears that the Contractor would have sustained a loss if the entire contract would have been completed, no markup shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss;

(B) Subject to the prior approval of the Contracting Officer, the costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to subsection (b). Subcontractors shall be entitled to a markup of no more than ten per cent on direct costs incurred to the date of termination. These costs must not include costs paid in accordance with subparagraph (A);

(C) The total sum to be paid the Contractor under this subsection shall not exceed the total contract price reduced by the amount of any sales of construction, goods, and construction materials under subsection (c), and the contract price of work not terminated.

(D) Cost claimed, agreed to, or established under paragraphs (2) and (3) of this subsection shall be in accordance with chapter 3-123, HAR, Cost principles. [HAR 3-125-22]

8.4 Liquidated damages. Liquidated damages. It is mutually understood and agreed by and between the parties to the contract that time shall be essence of the contract and that in case of failure on the part of the Contractor to complete the work under contract within the time fixed or agreed upon, the City will be damaged thereby, and the amount of said damages, inclusive of expenses for inspection, superintendence, and necessary traveling expenses, being difficult if not impossible of definite ascertainment and proof, it is hereby agreed that the amount of such damages shall be the amount set forth in the Contract as liquidated damages for each and every calendar day, including weekends and holidays, that the Contractor delays in finishing the work beyond the completion deadline established in the contract; and the Contractor hereby agrees to pay the said sum as liquidated damages, and not by way of penalty, to the City and further authorizes the City to deduct the amount of the damages from monies due the Contractor under the contract, computed as aforesaid. If the monies due the Contractor are insufficient or no monies are due the Contractor,

the Contractor shall pay the City the difference or the entire amount, whichever may be the case, upon demand by the Contracting Officer.

8.5 Authority to withhold money due or payable. (a) Withholding money due or payable. The City may withhold such amounts from the money due or to become payable under the contract to the Contractor, or any assignee under section 6.8, Assignment of money, as may be necessary to:

- (1) Protect the City from any liability resulting from the work performed under this contract;
- (2) Satisfy any obligation of the Contractor to the City, State Department of Taxation or Internal Revenue Service, including obligations not relating to the contract as required by law, and the obligation of the Contractor to the workers, subcontractors, and suppliers who have performed labor or furnished material and equipment under the contract as the Contracting Officer deems necessary, but only with the concurrence of or instructions from the Contractor's surety; or
- (3) Repair, restore, or compensate for, any real or personal property located within the project site or in the vicinity thereof which was damaged as a result of the fault or negligence of the Contractor while performing the work under this contract.

(b) Making payment from money withheld. The City may make such payments from such amounts withheld for reasons specified in subsection (a); provided, that before making any payment for damages to property prescribed in subsection (a)(3), the Officer-in-Charge shall request the Contractor in writing to undertake the repair or restoration of the damaged property or make compensation therefor. If the Contractor fails or refuses to make such repair, restoration, or compensation to the satisfaction of the Officer-in-Charge **within seven days** after notification by the Officer-in-Charge, the Contracting Officer, upon recommendation of the Officer-in-Charge and upon the Contracting Officer's own findings that such recommendation is justified, may make the necessary payments.

8.6 Authority to resolve contract and breach of contract controversies. (a) Controversies between the City and contractor. All controversies between the Officer-in-Charge and the Contractor which arise under, or are by virtue of, the contract and which are not resolved by mutual agreement between the Officer-in-Charge and the Contractor, shall be decided by the Contracting Officer in writing, within the time limitations below, after receipt of a written request from the Contractor for a final decision:

- (1) For controversies or for claims not exceeding fifty thousand dollars: **ninety calendar days** after receipt of the claim.
- (2) For claims exceeding fifty thousand dollars: **ninety calendar days** after receipt of the claim; provided that if a decision is not issued within ninety calendar days, the Contracting Officer shall notify the Contractor of the time within which the Contracting Officer will make the decision. The reasonableness of this time period will depend on the size and complexity of the claim and the adequacy of the Contractor's supporting data and other relevant factors.

If a decision on a controversy or a claim not exceeding fifty thousand dollars is not made within ninety calendar days after receipt, or if a decision is not made within the time promised for a claim in excess of fifty thousand dollars, the Contractor may proceed as if an adverse decision has been received.

The amount determined payable pursuant to the decision, less any portion already paid, normally should be paid without awaiting Contractor action concerning appeal. Such payments shall be without prejudice to the rights of either party and where such payments are required to be returned by a subsequent decision, interest on such payments shall be paid at the statutory rate from the date of payment. [HAR 3-126-28]

(b) Controversies involving City claims against the Contractor. All controversies involving claims asserted by the City against a Contractor which cannot be resolved by mutual agreement shall be the subject of a decision by the Contracting Officer or the Officer-in-Charge as applicable. [HAR 3-126-29]

(c) Interest. Interest on amounts ultimately determined to be due to a Contractor or the City shall be payable at the statutory rate applicable to judgments against the City under chapter 662, HRS, from the date the claim arose through the date of decision or judgment, whichever is later. [HAR 3-126-30]

(d) Cost of dispute. The Contractor shall pay to the City the amount of the City's costs to enforce the contract, including but not limited to amounts for attorneys' fees, consultants' fees and expenses.

(e) Governing law. The contract shall be construed under the laws of the State of Hawaii and Contractor consents to the exercise of personal jurisdiction over Contractor by the courts of the State of Hawaii.

(f) Severability. If any term or provision of the contract is found to be illegal, unenforceable or in violation of law, then, notwithstanding such term or provision, all other terms or provisions of the contract shall remain in full force and effect. When possible, however, the contract shall be interpreted so as to reflect the intentions of the parties as indicated by the provision or term in question.

(g) Decision. The Contracting Officer shall immediately furnish a copy of the decision to the Contractor, by certified mail, return receipt requested, or by any other method that provides evidence of receipt. Any such decision shall be final and conclusive, unless fraudulent, or unless the Contractor brings an action seeking judicial review of the decision in a circuit court of this State **within the six months** from the date of receipt of the decision.

The Contractor shall comply with any decision of the Contracting Officer and proceed diligently with performance of the contract pending final resolution by a circuit court of this State of any controversy arising under, or by virtue of, the contract, except where there has been a material breach of contract by the City; provided that in any event the Contractor shall proceed diligently with the performance of the contract where the Contracting Officer has made a written determination that continuation of work under the contract is essential to the public health and safety. [Chapter 3-126, subchapter 3, HAR]

CHAPTER 9 - SEXUAL HARASSMENT

9.1 General. The Contractor must comply with Revised Ordinances of Honolulu (ROH) section 1-18, on sexual harassment. The Contractor shall have and enforce a policy prohibiting sexual harassment. The Contractor's sexual harassment policy must set forth the same or greater protection than those contained or required by the ordinance. Section 1-18, ROH is on file and available for viewing in the Purchasing Division. Contractors needing a copy must pick up the copy from the Office of the City Clerk, Room 203, City Hall, 530 South King Street, Honolulu, Hawaii.

9.2 Applicability. The ordinance is applicable to the employer's business and includes:

(1) Prohibitions against an officer's or employee's sexual harassment of the following:

- (A) Another officer or employee of the employer;
- (B) An individual under consideration for employment with the employer; or
- (C) An individual doing business with the employer;

(2) A provision prohibiting a management or supervisory officer or employee from knowingly permitting a subordinate officer or employee to engage in the sexual harassment prohibited under paragraph (1) above;

(3) A prohibition against retaliation towards an officer, employee, or individual who has complained of sexual harassment, conducted an investigation of a complaint, or acted as a witness during an investigation of a complaint;

(4) A prohibition against a malicious false complaint of sexual harassment by an officer, employee, or individual;

(5) Provisions allowing an officer, employee, or individual to make a sexual harassment complaint to an appropriate management, supervisory, or personnel officer or employee;

(6) Procedures for investigating a sexual harassment complaint in an unbiased, fair, and discreet manner with appropriate safeguards to maintain confidentiality and protection from embarrassment;

(7) A provision requiring the use of the "reasonable person of the same gender standard," to determine if sexual harassment has occurred. Under the standard, sexual harassment shall be deemed to have occurred if the alleged offender's conduct would be considered sexual harassment from the perspective of a reasonable

person of the same gender as the alleged victim. If the alleged victim is a woman, the "reasonable person of the same gender standard" shall be equivalent to and may be called the "reasonable woman standard;"

(8) Disciplinary actions which may be imposed on an officer or employee who committed a prohibited act; and

(9) For an employer with at least five employees, a provision requiring the annual viewing of a video on the sexual harassment policy by each management or supervisory officer or employee.

9.3 Policy term. The policy required under this section shall be in effect for at least the duration of the Contractor's contract with the City.

9.4 Pledge and acceptance. The action of the Contractor signing the contract shall constitute the Contractor's pledge and acceptance of the provisions for the sexual harassment policy as required by section 1-18, HRS.

CHAPTER 10 - MISCELLANEOUS

10.1 Use of materials. The City shall have an unrestricted, royalty-free, nonexclusive and irrevocable license to reproduce, publish, translate or otherwise use and to authorize others to publish and use all materials obtained or produced in connection with the work hereunder which may be copyrighted by the Contractor prior to the completion of the contract.

10.2 Assignment of antitrust claims for overcharges for goods and materials purchased. Contractor and owner (City) recognize that in actual economic practice, overcharges resulting from antitrust violations are in fact usually borne by the owner. Therefore, Contractor hereby assigns to City any and all claims for such overcharges as to goods and materials purchased in connection with the order or contract, except as to overcharges which result from antitrust violations commencing after the price is established under this contract or any change order and which are not passed on to the City under an escalation clause. In addition, Contractor warrants and represents that each of its first tier suppliers and subcontractors shall assign any and all such claims to the City, subject to the same exception.

10.3 Managed Competition Review

All contracts executed on or after July 20, 1998 which will extend beyond June 30, 2001 (including contracts which have initial terms ending before June 30, 2001, but options to extend beyond June 30, 2001) will be subject to the Managed Competition Review.

During its term, this contract shall be subject to a single review by the City pursuant to the managed process for public-private competition to be developed under Part III, Section 6 of Act 230, Session Laws of Hawaii 1998. It is the understanding of the parties that, as a result of the managed process review, this Contract may be terminated by the City, renegotiated by mutual agreement of the parties, or continued in its current form. Any termination pursuant to this Section shall be deemed a termination for convenience.

EXHIBIT "A"

SURETY BID BOND

Bond No. _____

KNOW TO ALL BY THESE PRESENTS:

That we, _____,
(Full name or legal title of Bidder)
as Bidder, hereinafter called Principal, and _____,

(Name of bonding company)
as Surety, hereinafter called Surety, a corporation authorized to transact
business as a Surety in the State of Hawaii, are held and firmly bound unto the
CITY AND COUNTY OF HONOLULU, as Owner, hereinafter called Owner, in the penal sum
of _____
DOLLARS (\$_____), lawful money of the United States of America, for
the payment of which sum well and truly to be made, the said Principal and the
said Surety bind ourselves, our heirs, executors, administrators, successors and
assigns, jointly and severally, firmly by these presents.

WHEREAS:

The Principal has submitted an offer for _____

(Project number, if available, and description)

NOW, THEREFORE:

The condition of this obligation is such that if the Owner shall reject
said offer, or in the alternate, accept the offer of the Principal and the
Principal shall enter into a Contract with the Owner in accordance with the terms
of such offer, and give such bond or bonds as may be specified in the
solicitation or Contract Documents with good and sufficient surety for the
faithful performance of such Contract and for the prompt payment of labor and
material furnished in the prosecution thereof as specified in the solicitation
then this obligation shall be null and void, otherwise to remain in full force
and effect.
